

The Johns Hopkins Hospital Performing Arts Physical Therapy Fellowship

This fellowship is a clinical-based program for experienced physical therapists seeking to specialize in performing arts. The mission of this program is to provide a structured, comprehensive program of clinical, didactic and research experience to develop advanced clinical skills and management for rehabilitation of performing artists, such as dancers, musicians, vocal artists, aerialists and figure skaters.

Program benefits:

- Salary and full-time benefits, including paid time off
- One-on-one clinical mentoring
- Variety of unique didactic experiences
- Opportunity to participate in clinical research
- Leadership skill development

Details:

- 18-month-long program
- 200 hours of one-on-one mentorship with performing arts physical therapy specialists
- Over 150 hours of didactic curriculum provided by performing arts medicine professionals
- Experience with adolescent, collegiate and professional performing arts patient populations
- Participation in ongoing and innovative research designs
- Interdisciplinary collaboration, with a focus on patient-centered care
- Community outreach with high school, university and conservatory dance and music programs including private studios
- Opportunities to provide backstage services
- Opportunity to attend performing arts medicine conferences
