Supporting The Academy’s Mission and Members

In summary, the Academy members are fulfilling the mission of the Academy by supporting Johns Hopkins and its community in many ways, including:

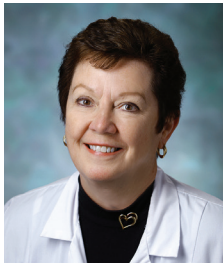

- Mentoring/Coaching
- Teaching/Precepting
- Research
- Lecturing
- Interviewing
- Serving on Review Committees for school activities
- Community service

The Academy needs the support of Johns Hopkins faculty, staff and leadership. We encourage you to:

- **Visit the Academy and spread the word**
- **Encourage senior faculty to visit the Academy**
- **Give a talk to the Academy Members**
- **Share invited speakers with the Academy**
- **Engage Academy members in School activities**

William Baumgartner, M.D.
Inaugural Chair

Carol Ziminski, M.D.
Co-Chair

Message from Drs. William Baumgartner and Carol Ziminski

We are proud to report on the fourth full year of operation of The Academy at Johns Hopkins, East Baltimore Campus. The year 2022 welcomed back Academy members to the Welch Library. Although the SARS-CoV-2 virus was still around, the positivity rate in Maryland continued to decline.

Our Academy members remained very active in their support of Johns Hopkins and the surrounding neighborhood. Their engagement spans the missions of research, mentoring, teaching and community service. As you will see from this report, their volunteer hours surpassed what was a record for 2021!

As mentioned in last year's annual report, we joined forces with our Academy colleagues on the Homewood campus. With the sharing of each Academy's calendar, respective members were able to participate in activities and events on either campus. This collegiality culminated in a combined "Holiday Soiree" at the Homewood campus on December 21 – a very festive "Jingle and Mingle" event where members were able to share some holiday cheer and celebrate the return of in-person gatherings.

Jennifer continues to do an outstanding job as our administrative coordinator as well as the Academy Manager overseeing both the Homewood and East Baltimore Academies. TreJenae easily and adeptly transitioned into her new role, as Senior Administrative Coordinator, primarily supporting the Homewood Academy and also providing invaluable help in many ways on the East Baltimore campus.

We feel honored to help develop and promote the Academy at Johns Hopkins. We wish to thank our invited speakers, committee co-chairs, engaged Academy members and, particularly, Drs. DeWeese, Szanton and MacKenzie for recognizing the need to honor our retired faculty and harness their wisdom, enthusiasm and commitment to Johns Hopkins.

Sincerely,

William Baumgartner, M.D.
Inaugural Chair

Carol Ziminski, M.D.
Co-Chair

Mission

Honoring our retired faculty from the three East Baltimore schools (Medicine, Nursing and Public Health) for their exceptional wisdom, intelligence and experience, the Academy actively engages motivated retired faculty in the Johns Hopkins community in ways that benefit our students, residents, fellows, patients, departments, neighbors and institution and support their ongoing professional fulfillment.

The Academy was created to support the continued research, teaching and community service of retired faculty from the East Baltimore Campus. Working together, members from the three schools (Medicine, Nursing and Public Health) seek to benefit students, residents, fellows, faculty, and neighbors in the pursuit of mentoring, teaching and community outreach.

The opportunity for members to join the Academy upon retirement reinforces the commitment of Johns Hopkins to honor faculty who have brought distinction to the University and who want to continue their scholarly activities for the benefit of the University and community.

Goals

- Facilitate the continued academic engagement and scholarly productivity of retired faculty from the Johns Hopkins School of Medicine, School of Nursing and Bloomberg School of Public Health
- Connect retired faculty with opportunities for service to Johns Hopkins University, the Baltimore community and society at large
- Offer retired faculty diverse opportunities for continued learning
- Help retired faculty maintain their social and professional connections within Johns Hopkins

Programs

Teaching/Precepting

Dr. Rick North serves in his third year as co-chair of the Teaching and Precepting Committee, with Dr. Edward Bartlett recently joining him as co-chair. This committee has eight members who are enthusiastic and excited to continue to be involved in teaching students and residents. They participate in numerous programs including the SOM Colleges, APECS (Assessment of Physical Exam and Communication Skills), TTW (Transition to Wards) for Y2 medical students and Clinical Foundations of Medicine (Clinical Skills) for Y1 medical students.

Advising/Mentoring/Coaching

This committee, co-chaired by Drs. Janet Serwint and David Kern since its inception, has eleven dedicated members. In collaboration with the SOM Institute for Excellence in Education (IEE) this committee created a Directory of Academy Mentors and Coaches located on the IEE Linked website which connects mentees and mentors and coachees with coaches. In 2022, this committee further defined its use of the terms “mentoring,” “advising,” and “coaching,” and updated resources on these topics on the Academy website for Academy mentors, University faculty and trainees. They have worked with the Vice Dean for Faculty to provide resources and advice regarding professionalism, promotion and coaching/mentoring. Finally, they have continued to provide targeted educational events to bolster Academy members’ knowledge and skills in these areas.

Special sessions by this committee in 2022 included:

- Mentoring Across Differences: Part 2 with panelists Drs. Michael Banks, Christopher Golden and Angela Orozco on April 28
- ‘Coaching and Mentoring: Sharpening Our Skills and Gaining New Tools’ led by Dr. Kimberly Skarupski, Senior Associate Dean for Faculty Development in the School of Medicine, on September 8
- Update on Professionalism Coaching with Dr. Maria Oliva-Hemker, Vice Dean for Faculty in the School of Medicine on December 8

Community Volunteering

This committee, co-chaired by Dr. Dotty Rosenthal and Ms. Ginny Corson, has 16 members who are actively engaged in community projects. In the year 2022, members of this committee met virtually and identified local volunteer opportunities of interest to Academy members, and then met in-person at the volunteer events. In-person events during the continued pandemic presented challenges, and the Academy members stepped up (masked, of course!). This committee formed a partnership with the Harriet Lane Food Pantry and regularly helped staff with their food-bagging events. A partnership was also formed with the First Fruits Farm, a non-profit organization that grows, harvests and provides fresh fruits and vegetables to those in need. Academy members met early in the fields in Freeland, Maryland on some Friday mornings to roll up their sleeves and harvest fresh produce. In addition, committee members met to staff the luncheon service at the Franciscan Center. Other members volunteered individually at organizations with connections to Hopkins such as the Women's Center of Helping Up Mission and a peer-to-peer tutoring program.

Other activities included co-chairs meetings with Dr. Kathleen Page from Centro Sol, a program providing healthcare for Latinos centered at Johns Hopkins Bayview, with leaders from the Johns Hopkins Homewood Academy, and with the investigators of the "Nobody Asked Me" project sponsored by Johns Hopkins University Department of Education to explore presentations and collaborations with the Academy.

Notable 2022 community volunteering activities:

- Harriet Lane Food Pantry food-bagging events on February 1, April 21, May 31, July 12, August 8, September 19, October 18, December 19
- First Fruits Farm harvesting events on July 22 and September 30
- Served food at the Franciscan Center on August 29 and November 22
- Giving Tuesday fundraiser for Henderson-Hopkins School

Member Enrichment Activities

Academy Symposia

This committee, co-chaired by Ms. Amy Deutschendorf and Dr. Kerry Stewart, has 14 members. The committee focuses on organizing symposia given by Academy members presented to fellow Academy members on cross-disciplinary topics. This committee established the popular series called 'Academy Rounds' presented by Academy members. Members of this committee meet regularly to plan for continued events.

Academy Rounds in 2022 included:

- Dr. John Anderson discussed his book 'A Nurse's War in the South Pacific' on February 3 – a moving, heartfelt account of his mother, nurse Angelina Mango.
- Dr. Michael Guarnieri presented 'A Drug for Mice: Really?' on June 30
- Dr. Edward McCarthy presented 'Medicine, Disease and Art' with emphasis on bones and orthopedic diseases on July 14
- Dr. Barbara Migeon presented 'X Inactivation and Sex Differences in Disease' on November 10

Social and Culture

This committee, chaired by Dr. Barbara Sollner-Webb, has 14 members who developed a number of social events for the Academy. The year 2022 brought the challenge of finding effective ways to host social events virtually as we all learned how to use Zoom. Dr. Sollner-Webb rose to the occasion and Academy members were able to stay socially connected during the pandemic.

Social events in 2022:

- Winter Hike on February 11 in Mt. Washington Village
- Walk/Hike on March 17 in Roland Park
- Walk/Hike on May 13 in Roland Park
- Walk/Hike on June 23 in Columbia around Wilde Lake and Lake Kittamaqundi
- Fall Hike on September 23 in Columbia

Speakers/Talks

This committee, co-chaired by Drs. Patti Vining and Beryl Rosenstein, has nine members whose mission is to identify and invite both Hopkins' internal and external speakers to the Academy. In 2022, they assembled an impressive line-up of speakers all who joined by Zoom. Presentations were recorded and shared with members unable to attend live.

Invited speakers in 2022 included:

- Dr. Al Sommer, former Dean of the Bloomberg School of Public Health presented his 'Personal Perspective' on public health on March 24
- Dr. Paul Auwaerter, Clinical Director, Division of Infectious Diseases gave us a 'COVID-19 Update: Boosters, Variants & the Road from Pandemic to Endemic' on April 14
- Ron Daniels, President of Johns Hopkins University, Lee Coyle, Senior Director for Planning and Architecture, and Amy Mercurio, Senior Director, Design and Construction gave an update on new Johns Hopkins Construction on May 12
- Dr. Julianna Jung presented 'Medical Education: Past, Present and Future' on June 16
- Dr. Richard Lofton, Principal Investigator of the Nobody Asked Me Campaign, presented this initiative on October 13

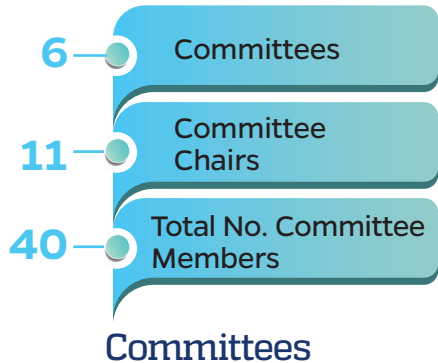

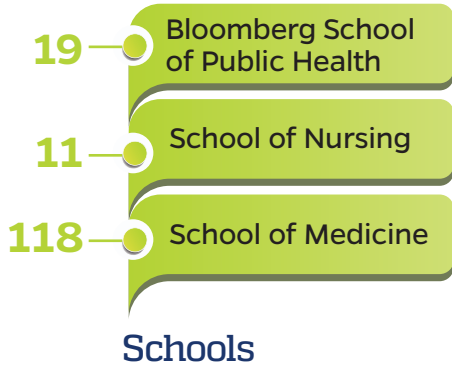

Scholarship

Many of our members continue to be academically productive. A recent survey of our members yielded the following results from this past year. We think you will find these statistics truly remarkable, but not surprising.

Program Impact

The Academy by the Numbers

TOTAL REPORTED VOLUNTEER EFFORTS BY ACADEMY SCHOLARS

7,271
total volunteer hours

789
volunteer hours for Teaching/Precepting

2,921
volunteer hours for Advising/Mentoring/Coaching

3,561
volunteer hours for Community Service

- 39** — Academy members served as mentors or advisors or coaches for Hopkins faculty and trainees
 - Academy members mentored **151** Hopkins faculty for **1,266** hours
 - Academy members mentored **62** Hopkins trainees for **663** hours
- 23** — Academy members served as mentors, advisors or coaches to faculty and trainees outside of Hopkins
 - Academy members mentored **36** faculty outside of Hopkins for **547** hours
 - Academy members mentored **14** trainees outside of Hopkins for **445** hours

Looking forward

Hopkins leaders frequently approach The Academy with new opportunities for our retired faculty to provide services to the Hopkins community. We are currently working on several upcoming projects and missions:

1

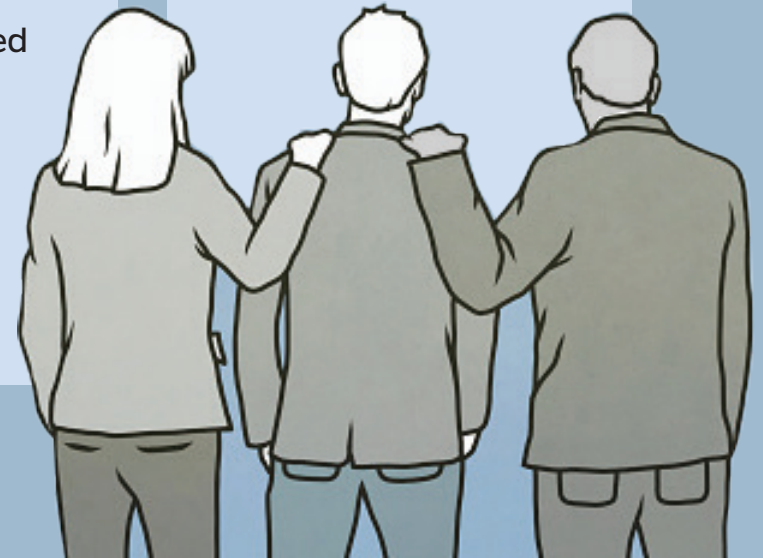

Strengthening our partnership with The Academy at Johns Hopkins, Homewood Campus. Building new events/functions that can serve the interests of members of both campuses' Academies.

2

Playing an integral advisory role in the creation of senior faculty programs designed for transition to retirement.

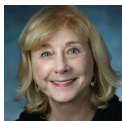

3

Embracing a return to in-person functions.
