KIMMEL CANCER CENTER

Healthier You. Healthier Communities.

JOHNS HOPKINS
MEDICINE

KIMMEL CANCER CENTER

Sibley Memorial Hospital | 5255 Loughboro Road, Washington DC 20016

ARE YOU CONCERNED YOUR PATIENT MAY HAVE CANCER?

Does your patient need a diagnostic work up — including imaging — to rule out cancer, or treatment planning and coordination if cancer is confirmed?

Is your patient dealing with side effects and medical issues of ongoing cancer therapy?

If so, **the Johns Hopkins Kimmel Cancer Center at Sibley Memorial Hospital is here to help.**

Our experienced patient navigator and nurse practitioner, located onsite at the Parkside Health Center, provide personalized care, follow-up and guidance each step of the way for you and your patients.

OUR TEAM APPROACH

- 1 Meet with patients and caregivers to **identify any barriers or needs**
- 2 **Gather medical records** needed for care
- 3 **Make referrals** to support services at Sibley
- 4 **Schedule timely appointments** with specialists at Sibley
- 5 Coordinate **financial assistance** and address **insurance** barriers
- 6 **Coordinate and communicate with YOU**, the patient's primary care provider, to ensure continuity of care
- 7 **Arrange free roundtrip transportation**, if needed, for all appointments at Sibley and Unity
- 8 **Serve as a consistent point of contact** at the point of suspicion of cancer, throughout treatment and into post-treatment survivorship
- 9 See patients at the Johns Hopkins Cancer Care Clinic at Unity for all **follow-up visits related to side effects, pain management**, any other symptoms and urgent care
- 10 **Provide support to address comorbidities** or other existing health concerns
- 11 **Conduct a survivorship visit at end of treatment** to review cancer and treatment history and to develop plan for living well after cancer treatment
