

RESEARCH STUDY TELEMEDICINE FOR WOMEN WITH IBD

- ❖ This is an education program designed to understand the impact of IBD on women's health at different ages.
- ❖ One-on-one *personalized* education with IBD specialist, Dr. Brindusa Truta to better identify the patient's needs.
- ❖ Access to other specialists that would benefit your care such as nutritionists, surgery, rheumatology, OBGYN and more.
- ❖ **Who can participate?** Adult women with IBD (Ulcerative Colitis/Crohn's Disease) from underrepresented communities including African Americans, Native Americans and Alaskan Natives, Hispanics, Native Hawaiians and other Pacific Islanders
- ❖ Using a telemedicine platform (HIPAA compliant), patient will meet with provider for a 60-minute meeting.
- ❖ No charges are associated with this program.
