

Hospital B I N G O

- introduces children to hospital and health care items and personnel
- helps children better understand the potentially frightening hospital environment
- provides accurate illustrations and definitions for 59 hospital items
- adapts to a classroom setting, a small group, or one-on-one environment
- works well as an interactive television program
- works well for children ages 4 and up

The **Hospital BINGO** game offers everything you need to establish your own program:

40 BINGO game boards

Oversized letters that spell BINGO for the call board

59 medical picture cards (6x6 inch) with definitions

BINGO chips

Detailed instruction booklet

Plus, Hospital BINGO includes recommendations for setting up your own interactive television program.

For more information, call Johns Hopkins Children's Center, Child Life CCTV at **410-955-2694**.
