

# CORE PD STUDY

## Consortium On Risk for Early-onset PD

- Do you have Parkinson's disease (PD)?
- Did you experience onset of motor signs at or before age 50?
- Did you receive your diagnosis of PD from a neurologist?

If you answered yes to all 3 questions, you may be eligible to participate in a research study to investigate genetic and environmental risk factors that increase susceptibility to the development of PD.

Participation in this research study involves a blood draw, questionnaires collecting information on family and medical history, and a neurological exam.

If you think you are eligible and are interested in learning more information about the study please contact:

Please call Melissa Gerstenhaber, R.N. at (410) 614-1242

*Principal Investigator: Laura Marsh, M.D.*

*Study Number: NA\_00002271*

This is a multi-center study being funded by the National Institutes of Health directed by Karen Marder, M.D., M.P.H. at Columbia University, New York City.
