

GIM Fellowship Conferences

1. **Research-in-Progress**

Thursdays, 12:15-1 pm

Clinical Scholar's Conference Room
Carnegie 295

Contact: Eric Bass/Brenda Zacharko

ATTENDANCE is **REQUIRED**

This conference is devoted to the discussion of research that is being planned or conducted by faculty and/or fellows in General Internal Medicine, General Pediatrics or the RWJ Clinical Scholars Program. The conference is intended to provide fellows an opportunity to receive feedback on their own studies as well as give feedback to other investigators on their studies. Each GIM fellow is expected to present at least once a year.

This conference addresses several fellowship objectives including: 1) To be able to critically appraise the medical scientific literature, including the methodology of published and proposed investigations, 2) To be able to independently formulate a research question, as well as be able to design and conduct a study to address that question, and 3) To be able to present and publish the results of one's scholarly work.

2. **GIM Fellow's Conference**

Mondays, 12:15-1 pm

Klag Conference Room
1830 Bldg, 8th Floor

Contact: Jeanne Clark/Brenda Zacharko

ATTENDANCE is **REQUIRED**.

This conference is devoted to addressing the needs of the GIM fellows, and changes a bit year to year according to the wishes of the fellows. It will cover some content areas key to a successful fellowship (choosing a mentor, choosing a research project...) plus allow time for fellows to talk, discuss clinical cases and meet with division directors and faculty leading the various clinical services.

This conference addresses most of the fellowship objectives, as well as allowing time for fellows to network with each other and GIM faculty.

3. **GIM Grand Rounds**

Fridays, 9:15-10 am

Orthopedics Conference Room
JHOC, 5th floor

Contact: Fred Brancati/Kathleen Hines

ATTENDANCE IS **HIGHLY RECOMMENDED**.

GIM Grand Rounds is a weekly forum for GIM faculty and fellows to meet. It allows for dissemination and discussion of GIM news and events. In general, each week a faculty member will present highlights of his or her work for discussion.

This conference provides an ideal forum for fellows to hear about the research being done by all GIM faculty, and to meet and interact with these faculty. In addition, it addresses some of the same objectives as the RIP.

4. **Welch Center Journal Club**

Tuesdays, 12:15-1 pm

Whelton Conference Room
Welch Center, Suite 2-600

Contact: Jeanne Clark/ Shequila Jacobs

ATTENDANCE IS **HIGHLY RECOMMENDED**.

The Welch Center Journal Club provides an excellent opportunity for fellows to enhance their abilities to critically review the literature. Led by research faculty, it is attended by both clinical fellows and masters and PhD students in the School of Public Health.

This conference addresses several fellowship objectives including: 1) To be able to critically appraise the medical scientific literature, including the methodology of published and proposed investigations, and 2) To be able to independently formulate a research question, as well as be able to design and conduct a study to address that question.

GIM Fellowship Conferences

Additional Recommended Conferences

1. **Welch Center Grand Rounds**

Wednesdays, 12:15-1 pm
Whelton Conference Room
Welch Center, Suite 2-600
Contact: Neil Powe/Linda Garren

This weekly conference provides an opportunity for Welch Center faculty and guests to present the results of ongoing, planned and completed research.

2. **Tumulty Rounds**

2nd and 4th Wednesdays, 12-1 pm
Cader Room
5th floor, Harvey Building of Hospital
Contact: John Flynn/Loretta Hoepfner

This conference highlights interesting or unusual clinical cases and involves discussion by housestaff, faculty and invited experts in the Department of Medicine.

3. **JHBMC Education RIP**

Monthly on 2nd Tuesday, 7:30-9am
JHBMC GIM Conference Room
Contact: Sue McFeater

The goal of this conference is to share education research and curricular work in progress so as to get feedback from others. Pilot testing of surveys, brain storming about methods, designs, and hypotheses often take place.

4. **Welch Center Interest Group Seminars**

Diabetes and Obesity

Wednesdays, 8:30-9:30 am
Whelton Conference Room
Contact: Sherita Golden

Mental Health Research in General Medicine Setting

Monthly on 1st Wednesday, 9:30-10:30 pm
Welch Center, Suite 2-500 conference room
Contact: Gail Daumit

Renal Disease Interest Group

Monthly on 2nd Tuesday, 4-5 pm
Whelton Conference Room
Contact: Bernard Jaar
