

**Postdoctoral Position – Department of Radiation Oncology and Molecular
Radiation Sciences**

Three-year Postdoctoral Position available for highly motivated candidates with a background in molecular/cellular biology and transgenic mouse models. Projects will focus on the epithelial-mesenchymal transition (EMT) and the role of EMT in organ fibrosis and tumorigenesis through the interrogation of tissues and cells derived from transgenic mouse models and non-invasive rodent imaging techniques.

Applicants should have a Ph.D. or M.D., Ph.D. degree and demonstrated relevant research experience and publication record. Excellent verbal and written English communication skills are essential. Start date after August 15, 2009.

Please send curriculum vitae, a cover letter stating research interests and career goals, and names and contact information of three references to:
