McKinsey & Company is a management consulting firm that advises senior management of the world's leading organizations on issues of strategy, organization, technology and operations. We are always on the lookout for high caliber individuals to help us fulfill our mission: 1) to help our clients make positive, lasting and substantial improvements to their performance, and 2) to build a great firm that is able to attract, develop, excite and retain exceptional people.

\* Though this presentation will focus on our healthcare work, we hire consultants as generalists who may prefer to focus on healthcare work, non-healthcare work, or a mix of both.
