

Are you over 60 and feeling depressed?

- Symptoms of depression in older adults are common yet often go undetected. Symptoms could include:
 - feelings of sadness or hopelessness
 - loss of energy
 - inability to enjoy pleasurable activities
 - changes in appetite or sleeping patterns
 - poor concentration/memory

- If you are feeling depressed, not taking antidepressant medication and in good physical health, you may be eligible to participate in a research study involving treatment.

- Qualified people will participate at no cost to them. Compensation for time and transportation will be provided.
