CSR: JHH Central Storeroom

MDC = JHHS Materials Distribution

\*Note: Due to H1N1 supply preparation, you will see multiple styles and colors of the plain earloop procedure masks and the earloop procedure masks with visors. We are obtaining them from several different sources. While they may look different, please note that they are all similar in effectiveness/protection. When a new style of mask is used, SAP numbers will have to change due to our system. The changes will be listed in the daily TOS list.

If you are told that a PPE item is TOS, please ask to speak to a supervisor for clarification. It is most likely a process issue and not an issue where a supply is not available.
