

HOLD THE DATE

*The Institute for Spirituality and Medicine 2010
The 60th Anniversary*

May 10-12, 2010

*Turner Auditorium
Johns Hopkins Medical Campus*

In 2010, the conference will be the 60th Institute for Spirituality and Medicine! The working title is “**Emerging Challenges in the Integration of Spirituality and Medicine.**” We will be looking back at our history as an Institute for Spirituality and Medicine. The Johns Hopkins Institute has the longest history of such an endeavor in the world of modern academic medical centers. We will also look to the future for opportunities and challenges that the intersection of Spirituality and Medicine may pose in years to come. While focusing on cutting edges of spirituality and medicine, we will also keep the questions of justice, affordability, and accessibility of healthcare in the center of our discussion. We look forward to your joining us in a spirited discussion of these and other vital themes in Spirituality and Medicine at our 2010 Symposium.

More Information will be forthcoming on the Johns Hopkins CME website at www.hopkinscme.edu or you may call 410-955-5842 or e-mail Rev. Dr. Paula Teague at pteague1@jhmi.edu for more information.
