

Seborrheic keratosis

Dermatosis papulosa nigra

# Volunteers needed for Seborrheic Keratosis and Dermatosis Papulosa Nigra Research

**Seborrheic keratosis and dermatosis papulosa nigra are very common skin lesions. We would like to investigate risk factors and patients' concerns related to these lesions.**

## Who Can Join This Study?

- Healthy adults with seborrheic keratosis(SK) or dermatosis papulosa nigra(DPN).

## Participation Involves:

- Up to 2 study visits, photography, clinical evaluation, and optional lesion sample collection and/or skin swabs.

## Time Needed for Study:

- Up to 3 weeks

## Compensation:

- No compensation for participating survey, photos, and skin swabs. \$10/one lesion sample collection (max \$60) will be given.
