

Volunteers with Skin of Color Needed

Topical tretinoin is often prescribed for photoaging in lighter-skin types. We would like to understand the effects of tretinoin on darker-skin types.

Who Can Join This Study?

- African American healthy adult participants.

Participation Involves:

- Up to 5 study visits, photography, topical tretinoin application, and skin biopsies.

Time Needed for Study:

- Up to 4 weeks

Compensation:

- \$100 upon completion of the study
