

# JOHNS HOPKINS

## MEDICAL IMAGING

### Comprehensive Cardiac Imaging in Bethesda

We are committed to providing excellent patient care while utilizing state-of-the-art equipment and the latest in software. All cardiac images are reviewed by Johns Hopkins radiologists who are subspecialty trained in cardiac imaging.

#### Cardiac MRI:

- Our 1.5T MRI offers a 70cm wide bore with a 500 pound weight capacity, noise-reducing technology, and feet-first or head-first options for patient entry.
- Exams can be performed for evaluation of ischemic and non-ischemic cardiomyopathy.
- All MRI scans are performed by specialty-trained technologists who work exclusively in MRI.

#### Cardiac CT:

- Our CT scanner acquires 128 slices as thin as 0.5 mm, handles a weight capacity up to 500 pounds, and provides a large bore of 78 cm.
- Studies are optimized to evaluate the extent and severity of plaque within the coronary arteries.
- All CT scans are performed by specialty-trained technologists who work exclusively in CT

#### Cardiac CT Calcium Score:

- This important risk marker for cardiovascular health is a quick and easy 10-minute scan that is performed without contrast or IV placement.
- Without insurance, this exam is \$75 out-of-pocket at Johns Hopkins Medical Imaging sites.
- Patients can schedule their own date, time, and location online at [hopkinsmedicine.org/imaging/mychart](https://hopkinsmedicine.org/imaging/mychart).

Patients on Johns Hopkins MyChart can find step-by-step instructions on how to schedule CT exams online at [hopkinsmedicine.org/imaging/mychart](https://hopkinsmedicine.org/imaging/mychart) or call 443-997-7237.

Our scheduling call center is open from 7:30am-6pm on Mondays through Fridays and from 8am-12pm on Saturdays.
