

Title	Clinical scenario 1: Low pretest probability and able to perform ETT	Clinical scenario 2: Intermediate pretest probability and able to perform ETT	Clinical scenario 3: High pretest probability and able to perform ETT	Clinical scenario 4: Low pretest probability and unable to perform ETT	Clinical scenario 5: Intermediate pretest probability and unable to perform ETT	Clinical scenario 6: High pretest probability and unable to perform ETT
<b>Definition</b>	All of the following <ul style="list-style-type: none"> <li>• able to exercise</li> <li>• EKG interpretable</li> <li>• low pretest probability of CAD</li> </ul>	All of the following <ul style="list-style-type: none"> <li>• able to exercise</li> <li>• EKG interpretable</li> <li>• intermediate pretest probability of CAD</li> </ul>	All of the following <ul style="list-style-type: none"> <li>• able to exercise</li> <li>• EKG interpretable</li> <li>• high pretest probability of CAD</li> </ul>	All of the following <ul style="list-style-type: none"> <li>• unable to exercise OR EKG interpretable or abnormal</li> <li>• low pretest probability of CAD</li> </ul>	All of the following <ul style="list-style-type: none"> <li>• unable to exercise OR EKG interpretable or abnormal</li> <li>• intermediate pretest probability of CAD</li> </ul>	All of the following <ul style="list-style-type: none"> <li>• unable to exercise OR EKG interpretable or abnormal</li> <li>• high pretest probability of CAD</li> </ul>
<b>AUC rules</b>						
<b>Consistent with AUC</b>	<ul style="list-style-type: none"> <li>• Coronary CTA</li> <li>• Exercise Treadmill Test</li> <li>• Stress Echocardiography</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary CTA</li> <li>• Nuclear Medicine MPI</li> <li>• Stress MRI</li> <li>• Stress echocardiography</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary CTA</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary CTA</li> <li>• Stress echocardiography</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary CTA</li> <li>• Nuclear Medicine MPI</li> <li>• Stress MRI</li> <li>• Stress echocardiography</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary CTA</li> </ul>
<b>Allowable by AUC</b>		<ul style="list-style-type: none"> <li>• Exercise Treadmill Test</li> <li>• Cardiac PET</li> </ul>	<ul style="list-style-type: none"> <li>• Stress Echocardiography</li> <li>• Stress MRI</li> <li>• Nuclear Medicine MPI</li> <li>• Cardiac PET</li> </ul>	<ul style="list-style-type: none"> <li>• Nuclear Medicine MPI</li> <li>• Stress MRI</li> <li>• Stress echocardiography</li> <li>• Cardiac PET</li> </ul>	<ul style="list-style-type: none"> <li>• Cardiac PET</li> </ul>	<ul style="list-style-type: none"> <li>• Nuclear Medicine MPI</li> <li>• Stress MRI</li> <li>• Stress echocardiography</li> <li>• Cardiac PET</li> </ul>
<b>Does not meet AUC</b>	<ul style="list-style-type: none"> <li>• Nuclear Medicine MPI</li> <li>• Stress MRI</li> <li>• Cardiac PET</li> <li>• Coronary artery calcium screening</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary artery calcium screening</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary artery calcium screening</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary artery calcium screening</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary artery calcium screening</li> </ul>	<ul style="list-style-type: none"> <li>• Coronary artery calcium screening</li> </ul>
