

JOHNS HOPKINS MEDICAL IMAGING

Coming Soon to JHMI Wilde Lake Pavilion

Johns Hopkins Medical Imaging is excited to announce that the following imaging services will be moving from Columbia Medical Center to a new suite at Wilde Lake Pavilion beginning August 4, 2026.

- Mammography
- Ultrasound
- DEXA

These exams will no longer be offered at Columbia Medical Center after August 4, 2026.

Expanded Capacity and Exams:

As part of our commitment to bringing high-quality imaging care, Wilde Lake Pavilion will begin offering:

- Stereotactic breast biopsies
- Whole-body DEXA exams
- Pediatric DEXA exams

Johns Hopkins Medical Imaging offers state-of-the-art imaging equipment, including new mammography, ultrasound and DEXA equipment. This will enable increased patient capacity for breast imaging and breast biopsies.

MRI, CT, and X-Ray exams will continue to be available at Wilde Lake Pavilion, Suite 300.

Clear Results, Compassionate Care
