

JOHNS HOPKINS MEDICAL IMAGING

Wilde Lake Pavilion: Expansion Plans

As part of our continued efforts to bring expanded imaging services to you and your patients, we will begin the next phase of construction at Wilde Lake Pavilion starting in Summer 2025. This will enable us to provide mammography, ultrasound and DEXA services at the same location as MRI, CT and X-ray. This next phase is anticipated to open in Fall 2026.

We will continue to be open for regular operations at both Columbia Medical Center and Wilde Lake Pavilion. Thanks for your patience and understanding during construction.

Clear Results, Compassionate Care
