

### PI Recertification In-Person Activity

The requirement for an in-person activity remains part of PI recertification. Virtual activities can be accepted as the in-person requirement.

Learning activities at the institutional, departmental, or divisional levels may qualify towards the in-person activity requirement. The content must focus on research ethics, and the JHM Human Research Protection Program must approve the activity as meeting this requirement. Examples include:

Grand Rounds  
Lectures  
Conferences  
Seminars

If you wish to apply for in-person credit for a learning activity, please complete the information below. Once completed, email the form to the IRB Help Desk at [jhmeirb@jhmi.edu](mailto:jhmeirb@jhmi.edu). The form will be reviewed and you will receive a response on the acceptability of the activity.
