## Personal Protective Equipment

Hi!  
My name is  
Jamie!

In this picture, I am wearing a **surgical mask** and face shield with a gown and gloves. These help protect me and others from germs that land on surfaces or that might splash.

I am wearing a face shield and a mask called an **N95 respirator** with a gown and gloves in this picture. These things help protect me and others from germs that are in the air or that might splash.

Here, I am wearing a face shield and a mask called a **half-face respirator** with a gown and gloves. These also help protect me and others from germs that are in the air or that might splash.

In this last picture, I am wearing a mask called a **PAPR** with a gown and gloves. This also helps to protect me and others from germs that are in the air or might splash.

**I decorated my face shield with the Wonder Woman sign!**
