SPECIALTY GUIDELINE MANAGEMENT

BELEODAQ (belinostat)

POLICY

I. INDICATIONS

The indications below including FDA-approved indications and compendial uses are considered a covered benefit provided that all the approval criteria are met and the member has no exclusions to the prescribed therapy.

A. FDA-Approved Indication

Treatment of adult patients with relapsed or refractory peripheral T-cell lymphoma (PTCL)

B. Compendial Uses

T-Cell Lymphomas

- i. Hepatosplenic T-cell lymphoma
- ii. Extranodal NK/T-cell lymphoma
- iii. Adult T-cell leukemia/lymphoma (ATLL)
- iv. Breast implant associated anaplastic large cell lymphoma (ALCL)

All other indications are considered experimental/investigational and not medically necessary.

II. CRITERIA FOR INITIAL APPROVAL

T-Cell Lymphomas

Authorization of 12 months may be granted for treatment T-cell lymphomas with any of the following subtypes:

1. Peripheral T-cell lymphoma [including the following subtypes: anaplastic large cell lymphoma, peripheral T-cell lymphoma not otherwise specified, angioimmunoblastic T-cell lymphoma, enteropathy associated T-cell lymphoma, monomorphic epitheliotropic intestinal T-cell lymphoma, nodal peripheral T-cell lymphoma with TFH phenotype, or follicular T-cell lymphoma] when both of the following criteria are met:
 - i. The requested drug will be used as a single agent, and
 - ii. The requested drug is used for relapsed or refractory disease or for palliative intent.
2. Hepatosplenic T-cell lymphoma when both of the following criteria are met:
 - i. The requested drug will be used a single agent, and
 - ii. The member has had two or more previous lines of chemotherapy.
3. Extranodal NK/T-cell lymphoma when all of the following criteria are met:
 - i. The requested drug will be used as a single agent, and
 - ii. The member has relapsed or refractory disease, and
 - iii. The member has had an inadequate response or contraindication to asparaginase-based therapy (e.g., pegaspargase).
4. Adult T-cell leukemia/lymphoma (ATLL) when both of the following criteria are met:
 - i. The requested drug is used as a single agent, and
 - ii. The requested drug is used for subsequent therapy.
5. Breast implant-associated anaplastic large cell lymphoma (ALCL) when both of the following criteria are met:

| |
