EXCEPTIONS CRITERIA TRASTUZUMAB PRODUCTS

PREFERRED PRODUCTS: KANJINTI AND OGIURI

POLICY

This policy informs prescribers of preferred products and provides an exception process for targeted products through prior authorization.

I. PLAN DESIGN SUMMARY

This program applies to the trastuzumab products specified in this policy. Coverage for targeted products is provided based on clinical circumstances that would exclude the use of the preferred product and may be based on previous use of a product. The coverage review process will ascertain situations where a clinical exception can be made. This program applies to all members requesting treatment with a targeted product.

Each referral is reviewed based on all utilization management (UM) programs implemented for the client.

Table. Trastuzumab Products

	Product(s)
Preferred*	<ul style="list-style-type: none"> • Kanjinti (trastuzumab-anns) • Ogivri (trastuzumab-dkst)
Targeted	<ul style="list-style-type: none"> • Herceptin (trastuzumab) • Herceptin Hylecta (trastuzumab and hyaluronidase-oysk) • Herzuma (trastuzumab-pkrb) • Ontruzant (trastuzumab-dttb) • Trazimera (trastuzumab-qyyp)

*: Medications considered formulary or preferred on your plan may still require a clinical prior authorization review.

II. EXCEPTION CRITERIA

Coverage for targeted product is provided when the member has had a documented intolerable adverse event to BOTH of the preferred products, and the adverse event was not an expected adverse event attributed to the active ingredient as described in the prescribing information (i.e., known adverse reaction for both the reference product and biosimilar products).
