**ACTION**

- New Policy
- Repealed Policy Date: \_\_\_\_\_
- Superseded Policy Number: \_\_\_\_\_

The most current version of the reimbursement policies can be found on [www.jhhc.com](http://www.jhhc.com).

These policies serve as a guide to assist you in accurate claim submissions and to outline the basis for reimbursement if the service is covered by a member’s Johns Hopkins HealthCare (JHHC) benefit plan. The determination that a service, procedure, item, etc. is covered under a member’s benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis as well as to the member’s state of residence. You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services must be billed with ICD-10 codes, CPT codes, HCPCS codes and/or revenue codes. The codes denote the services and/or procedures performed. The billed code(s) are required to be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our policies apply to both participating and nonparticipating providers and facilities.

If appropriate coding/billing guidelines or current Reimbursement Policies are not followed, Johns Hopkins HealthCare (JHHC) may:

- Reject or deny the claim
- Recover and/or recoup claim payment

JHHC reimbursement policies are developed based on nationally accepted industry standards and coding principles. These policies may be superseded by mandates in provider, state or commercial client contracts, or state, federal or CMS contracts and/or requirements. System logic or setup may prevent the loading of policies into the claims platforms in the same manner as described; however, JHHC strives to minimize these variations.

JHHC reserves the right to review and revise our policies periodically when necessary. When there is an update, we will publish the most current policy on [www.jhhc.com](http://www.jhhc.com).

**POLICY**

Johns Hopkins Healthcare (JHHC) does not allow separate reimbursement for supplies provided on the same day as an associated E/M visit or medical/surgical procedure, as they are considered to be incidental and not separately reimbursable. CMS incorporates the cost of supplies into the relative value units of evaluation and management (E/M) services and procedures performed in non-facility settings.

*This policy statement memorializes JHHC’s existing Policy on this subject matter as applied prior to the Effective Date of this policy statement.*

**SCOPE**

This policy applies to all supplies and surgical trays reported on CMS-1500 claim forms or its electronic equivalent, to a JHHC product, from network and non-network physicians, providers, and suppliers.

**PROVIDER BILLING GUIDELINES**

Applicable place of service codes for supply code bundling are 1, 11, 17, 20, 49, 71, 72, 81, or 99. Supply codes subject to bundling are found in the Codes section below and will automatically deny as bundled in one of the listed place of services.

JHHC anticipates that these supply codes will only be billed in conjunction with an E/M visit or medical/surgical procedure.

**REIMBURSEMENT**

JHHC will not separately reimburse for the supply codes listed below unless the provider’s contract states otherwise.

**Regarding non-specific CPT 99070:**

- **EHP and AdvantageMD** - Supplies and materials, except spectacles, provided by the physician or other qualified health care professional over and above those usually included with the office visit or other services rendered (list drugs, trays, supplies, or materials provided) is not reimbursable in any setting. For reimbursement of covered medical and surgical supplies, an appropriate Level II HCPCS code must be submitted.

- **PPMCO** follows State guidance, and allows payment to providers, at “...*their acquisition cost for these services. Invoice documentation is only required for supplies with an acquisition cost of 10 dollars or more. Only those supplies provided by the provider over and above those usually included with the office visit or other services rendered may be listed separately under procedure code 99070.*”

**EXCLUSIONS**

USFHP is excluded from this policy, at this time.
