

NOTE: Submission of medical records is required.	
[If no, skip to question 6.]	
3. Does the patient have an intact plasma parathyroid hormone (iPTH) level greater than 400 pg/mL [or Bio-Intact (full-length) PTH greater than 200 pg/mL]?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	
[If no, no further questions.]	
4. Does the patient have a serum calcium level greater than or equal to 8.4 mg/dL?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	
[If yes, no further questions.]	
5. Does the patient have a calcium X phosphorus product greater than 55 mg ² /dL ² ?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	
[No further questions.]	
6. Does the patient have a diagnosis of hypercalcemia due to parathyroid carcinoma?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	
[If no, no further questions.]	
7. Does the patient have a total serum calcium level (corrected for serum albumin) greater than or equal to 10.2 mg/dL (or maximum per lab/facility) despite standard therapy to control hypercalcemia?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Calculation for corrected total serum calcium = total calcium + 0.8 (4 - serum albumin) [4 gm/dL (normal serum albumin) - most recent serum albumin]. The normal serum albumin of 4.0 gm/dL is based on measurements using bromocresol green. If the bromocresol purple method is used, the normal serum albumin should be 3.5 gm/dL. \ NOTE: Submission of medical records is required.	
[If no, no further questions.]	
8. Does the patient have a documented trial and treatment failure or intolerance to phosphate binders such as PhosLo and Renagel?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	
[No further questions.]	
9. Has the patient been on therapy for greater than or equal to 9 months?	<input type="checkbox"/> Y <input type="checkbox"/> N
[If no, skip to question 12.]	
10. Does the patient have an intact PTH (iPTH) levels greater than 150 pg/mL and serum calcium greater than 8.4 mg/dL?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	
[If no, no further questions.]	

11. Has there been a documented reduction in PTH with CKD on dialysis OR a documented reduction in serum calcium and phosphorus levels with parathyroid carcinoma?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	
[No further questions.]	
12. Does the patient have an intact PTH (iPTH) level greater than 150 pg/mL and serum calcium greater than 8.4 mg/dL?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	
[If no, no further questions.]	
13. Has there been a documented reduction in PTH with CKD on dialysis OR a documented reduction in serum calcium and phosphorus levels with parathyroid carcinoma?	<input type="checkbox"/> Y <input type="checkbox"/> N
NOTE: Submission of medical records is required.	

I attest that the medication requested is medically necessary for this patient. I further attest that the information provided is accurate and true, and that the documentation supporting this information is available for review if requested by the claims processor, the health plan sponsor, or, if applicable a state or federal regulatory agency.
