

Provider Update

This update contains pertinent information about changes that will impact the Johns Hopkins HealthCare provider network.

Advantage MD Primary Care Provider Change Form

As part of our ongoing efforts to improve processes, we are implementing the Johns Hopkins Advantage MD Primary Care Provider Change Form. Please use this form when an Advantage MD member is in your office and would like to select one of your providers as his/her new PCP.

Effective June 15, 2019, please use this form, complete all fields, and submit as noted on the form. Please fax or mail the form on the same day the member is being seen by the new PCP to ensure the member's record is updated in a timely manner.

This form should not be used to request outreach to an advantage MD member to assist with selecting a new PCP. This new form can also be found on our website. Visit JHH.com>Resources & Guidelines>Forms (Advantage MD).

Please contact the JHHC Provider Relations department at 888-895-4998 with any questions or concerns
