

## MDH to Launch New Provider Enrollment Platform in October 2026

**Effective Date:** March 11, 2026

**Health Plans Affected:** Priority Partners

**Type of Change:** Provider Enrollment Platform

### Explanation of Change:

Johns Hopkins Health Plans wishes to inform our Priority Partners providers that Maryland Medicaid will transition from ePREP, the current online provider enrollment and revalidation portal system, to a new Medicaid Provider Enrollment portal system. The new system, titled **MPRIME** (Maryland Provider Registration and Information Management Enterprise), is set to go live in October 2026.

To prepare for the changeover, Maryland Medicaid will be putting a phased hold on ePREP applications. Once these holds take effect, providers must wait until the new system is available to make any enrollment updates, including new enrollments, revalidations and any changes to existing enrollment accounts.

- Effective July 1, 2026, applications may not be submitted in ePREP for high and moderate risk provider types. A list of all high and moderate risk provider types is included in [Attachment 1](#).
- Effective Aug. 1, 2026, applications may not be submitted in ePREP for limited risk provider types. A list of all limited risk provider types is included in [Attachment 2](#).

For any questions, please contact [mdh.providerenrollment@maryland.gov](mailto:mdh.providerenrollment@maryland.gov). An [FAQ document](#) is also available with details on the ePREP transition.
