

## New MDH Website for Select Fee Schedules; July 1 Begins Changeover to New Provider Enrollment System

**Effective Date:** Immediately

**Health Plans Affected:** Priority Partners

**Type of Change:** Provider Enrollment Platform and Fee Schedules

### Explanation of Change:

Johns Hopkins Health Plans would like to keep you apprised of two important developments for Priority Partners.

### New Website for Medical Lab and Professional Services Fee Schedule

Effective immediately, the Medical Laboratory and Professional Services Fee Schedules are available on a [centralized provider resources website](#) from the Maryland Department of Health.

**This enhanced website offers the following key improvements:**

- Newly formatted and easily searchable fee schedules
- Centralized access to provider links, clinical criteria and necessary forms, including prior authorization and sterilization consents
- Professional Services and Podiatry Provider Manual
- Enables Maryland Medicaid to manage real-time fee schedule updates

Please be advised that the former websites for prior authorization forms and clinical criteria are being discontinued on **June 30, 2026**. This includes the following URLs:

- <https://health.maryland.gov/mmcp/Pages/Preauthorization-Information.aspx>
- <https://health.maryland.gov/mmcp/Pages/Clinical-Criteria-for-Drugs-and-Injectables-Requiring-Preauthorization.aspx>
- <https://health.maryland.gov/mmcp/Pages/Lab-Testing.aspx>

### **Reminder:** Phased Hold on ePREP Applications begins July 1

Starting July 1, 2026, Maryland Medicaid will transition from ePREP, the current online provider enrollment and revalidation portal system, to a new Medicaid Provider Enrollment portal system. The new system, titled MPRIME (Maryland Provider Registration and Information Management Enterprise), is set to go live in October 2026.

Get your enrollment information in now, because after July 1 providers are required to wait until the new system is available to make any enrollment updates, including new enrollments, revalidations, and any changes to existing enrollment accounts.

- Effective July 1, 2026, applications may not be submitted in ePREP for high and moderate risk provider types.
- Effective Aug. 1, 2026, applications may not be submitted in ePREP for limited risk provider types.

For any questions, please contact [mdh.providerenrollment@maryland.gov](mailto:mdh.providerenrollment@maryland.gov). An [FAQ document](#) is also available with details on the ePREP transition.
