Updates to eviCore Lab Procedure Codes for Priority Partners

Effective Date: March 17, 2023

Health Plans Affected: Priority Partners

Type of Change: Prior Authorization

Explanation of Change:

Effective March 17, 2023, Johns Hopkins HealthCare will require prior authorization for select new lab procedure codes for Priority Partners.

[List of procedure codes requiring prior authorization*](#)

This list is provided for reference purposes only. The prior authorization requirement applies to Priority Partners members of all ages.

For prior authorization through eviCore, providers should submit prior authorization requests via the eviCore portal through [HealthLINK](#), directly through the [eviCore portal**](#), or, if the portal cannot be accessed, by calling eviCore at **866-220-3071**.

The listing of a code does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by the member's specific benefit plan document and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies and Guidelines may apply.

Please refer to the Johns Hopkins Prior Authorization Lookup tool (JPAL), located in the [HealthLINK](#) portal, to check and verify preauthorization requirements for outpatient services and procedures.

Note: Prior authorization requirements are subject to change.
