# Our Mission

**TREATMENT** — Deliver quality services with compassion and a commitment to patient safety and family-centered care

**EDUCATION** — Teach the next generation of health care professionals and provide educational programs for our patients, families and employees

**RESEARCH** — Discover new information about the origins of disease and conduct innovative research that advances the diagnosis, treatment and prevention of childhood diseases

**ADVOCACY** — Provide leadership in promoting the well-being of children

## Education

*We believe expert care begins with education both for health care professionals and patient families.*

- › **18** Out of **118** graduates of Johns Hopkins All Children's residency and fellowship programs are now attending physicians at the hospital
- › **50+** Year relationship with USF Health in training its Morsani College of Medicine pediatric residents
- › **160+** Full- and part-time faculty of The Johns Hopkins University based in St. Petersburg
- › **59%** Cumulative growth in academic appointments 2019–23
- › **15** Simulation rooms in the Center for Medical Simulation and Innovative Education

## Research

*We seek to improve the health of children by providing patients and health care professionals with access to innovative research opportunities.*

- › **50** Johns Hopkins All Children's investigator-initiated clinical research studies
- › **225** Peer-reviewed articles published in scientific and medical journals
- › **15.3+** Million dollars in grants awarded for research in fiscal year 2023
- › **TOP 15%** in therapeutic trial enrollments on Children's Oncology Group studies nationally
- › **100+** Active staff dedicated to research

# Treatment

Johns Hopkins All Children's offers expert care in more than 50 pediatric specialties and sub-specialties.

303,892+  
Outpatient care visits at locations throughout the west coast of Florida

982+ Admissions to our American Academy of Pediatrics Level IV NICU

2,668+ Admissions to our intensive and intermediate care units

6,750+ Inpatient admissions

7,814+ Surgeries

48,985+ Emergency Center visits

U.S. News & World Report ranks us #1 in Florida for 2023–2024 with seven of our specialty programs ranked nationally among children's hospitals

110+

Admissions to the Center for Congenital Diaphragmatic Hernia (CDH), which has a success rate since 2016 exceeding 90 percent, well above national benchmarks

150+

Very low (3 pounds, 5 ounces or less) and extremely low birth weight (less than 2 pounds, 3 ounces) babies treated in the Neonatal Intensive Care Unit (NICU)

41

Blood and marrow transplants. For patients transplanted the previous year, one-year survival rate was 90%

7

CAR-T immunotherapy procedures. We were the first pediatric center in Florida approved to offer CAR-T, beginning in 2018

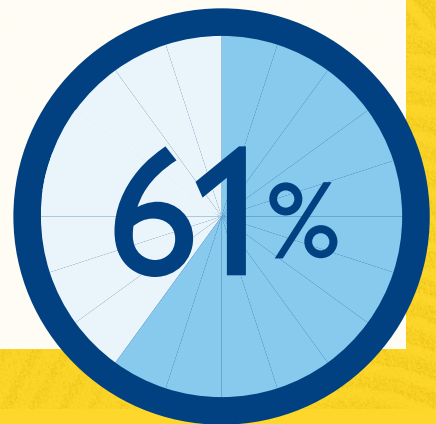

63

Percentage of our hospital beds devoted to intensive care units

# Advocacy

*We stand with all children and families to advance an equitable quality of life for all within the hospital and community through advocacy, education and collaboration. For Pinellas County, our Community Benefit Service Area:*

- › **15.9** Black infant deaths per 1,000 births in Pinellas County. As the organizer for Healthy Start services specific to addressing disparities among the most vulnerable populations, we seek to improve outcomes for children from birth.
- › **50%** of school-age children in our area are eligible for free or reduced school lunch. One in six live in homes with low food security, meaning they do not have enough food at times for an active, healthy life. To help fill this meal gap, the hospital participates in the Summer BreakSpot program to provide hot nutritious meals for students.
- › **61%** of our patients are on Medicaid.
