

Annual Report FY22

The Center for Nursing Inquiry
Johns Hopkins Health System

The background is a dark blue field with abstract, glowing blue elements. On the left, there are several overlapping hexagonal shapes in white and dark blue. In the center, a large, dark grey rectangular box contains the quote. To the right, a glowing blue brain is depicted with a white hexagon overlaid on it. At the bottom, a glowing blue gear is visible, with a white line extending from it towards the bottom right corner.

“In the fields of
observation chance only
favors the prepared
mind.”

Louis Pasteur

Our Vision

The Johns Hopkins Health System Center for Nursing Inquiry exemplifies nursing Evidence-based Practice, Quality Improvement, and Research.

Our Mission

The Center for Nursing Inquiry's mission is to increase the competence, confidence and capacity of Johns Hopkins Health System nurses to engage in meaningful inquiry work.

“One exciting part of
inquiry work is being able
to drive nursing
professional practice”

Heather Watson, PhD, RN

About Us

The Center for Nursing Inquiry oversees the scholarly work of nurses in the Johns Hopkins Health System. Our goal is to build the capacity for nurses to participate in the three forms of inquiry: research, evidence-based practice (EBP), and quality improvement (QI). At the Center for Nursing Inquiry, we offer a variety of educational resources and expert guidance to help nurses engage in meaningful, high-quality scholarly work. We are dedicated to advancing the science of nursing.

Johns Hopkins Medicine values guide our Center

- Excellence and Discovery
- Leadership and Integrity
- Diversity and Inclusion
- Respect and Collegiality

Center for Nursing Inquiry Leadership

Heather Watson, Ph.D., MSN, RN-BC

- Dr. Heather Watson is The Johns Hopkins Health System (JHHS) Nurse Scientist; leading and conducting discipline-specific and interprofessional research to strengthen the implementation, adoption, and sustainability of best evidence for clinical, administrative, and nursing practice.

Madeleine Whalen, MSN/MPH, RN, CEN

- Maddie Whalen is the Evidence-Based Project Program Coordinator for the Johns Hopkins Health System. In this role, she supports frontline nursing in completing robust and actionable EBP projects.

Alexandra Johnson, MSN, RN

- Alexandra Johnson is the Nursing Inquiry Program Coordinator for the Johns Hopkins Health System. In this role, she conducts and guides nursing research, evidence-based practice, and quality improvement work.

Nadine Rosenblum, MSN, RN IBCLC

- Nadine Rosenblum is the Nursing Inquiry Program Coordinator for the Johns Hopkins Health System. In this role, she conducts and guides nursing research, evidence-based practice, and quality improvement work.

Collaboration across JHHS

The JHHS CNI Council includes nurse representatives from each affiliate working toward integrating inquiry work, building capacity, and supporting Magnet designation.

Affiliate Representatives

Johns Hopkins Hospital

- Judy Ascenzi, DNP, RN
- Kim Bissett, PhD, RN (IJHN)

Sibley Hospital

- Suzanne Dutton, DNP, GNP
- Rowena Milburn, DNP, RNC

Bayview Medical Center

- Cathy Lindauer, DNP, RN

Suburban Hospital

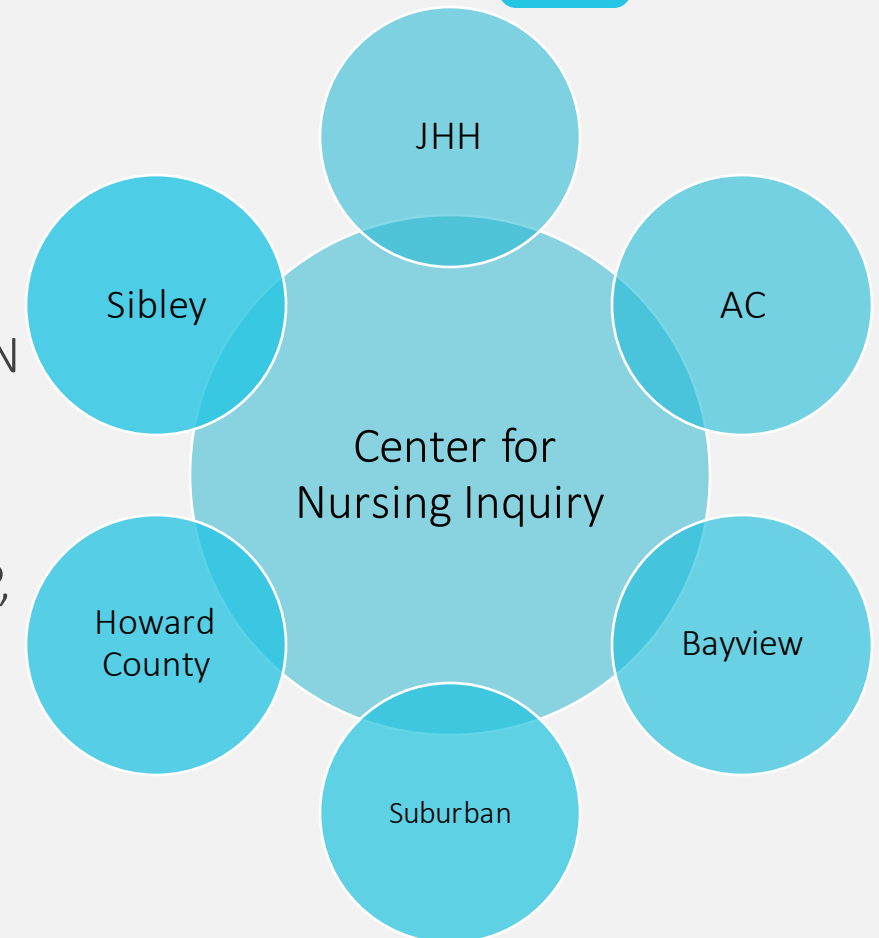

- Raphael Oguariri, PhD, MSN, RN

Howard County Hospital

- Victoria Lowe, PhD(c), RN

All Children's Hospital

- Kristina Burger, DNP, RN
- Joanne Christopher-Hines, DNP, APRN

Jeanne Mahoney serves as the Administrative Coordinator for the Center for Nursing Inquiry.

The background features a collage of hexagonal shapes. Some are solid blue, while others are white with black outlines. Overlaid on these are various medical and healthcare icons: a heart with a pulse line, a hand holding a heart, a stethoscope, a person icon, and a bar chart. The overall theme is healthcare and learning.

“When there is inquiry, there is action, and this action will promote learning.”

Lynn McDonald, DNP, RN

Nursing Inquiry

The CNI supports the three forms of inquiry from inception to completion.

	JHH	Bayview	Howard County	All Children's	Sibley	Suburban	JHHS
Research Studies	9	2	0	5	4	0	2
EBP	4	1	1	3	0	2	0
QI	26	0	1	11	9	1	0
Podium/ Poster	53	7	3	5	13	5	1
Publications	11	1	0	2	2	0	6

The CNI recognizes this may not be a comprehensive list.

What Nursing Inquiry Looks Like “On Paper”

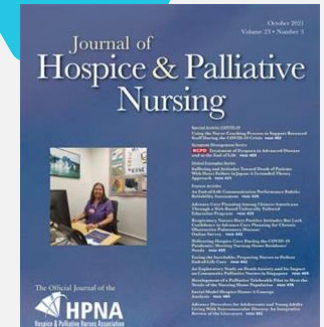

Nurses throughout the health system contributed to several studies and published on a variety of topics.

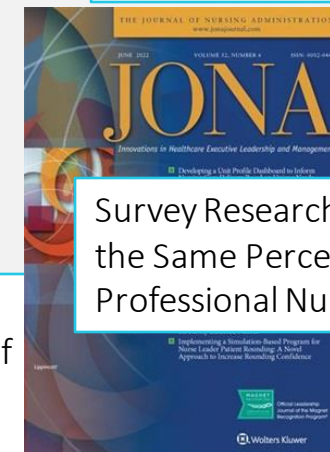

Approaches for establishing and sustaining clinical academic partnerships: A discursive review

The Advocacy Role of the Perianesthesia Nurse in Ethics of Safe Nursing Care: The Voice for the Patient in Mitigating Risk Practices

Advance Directives for Adolescents and Young Adults Living with Neuromuscular Disease: An Integrative Review of the Literature

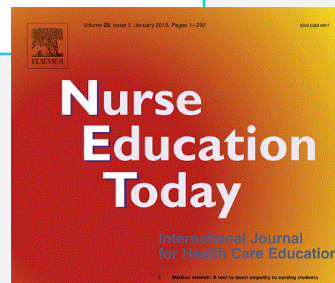

Survey Research: Do All RN Types Have the Same Perceptions Regarding Professional Nursing Governance?

Baby Friendly Hospital Designation and Breastfeeding Outcomes Among Maryland WIC Participants

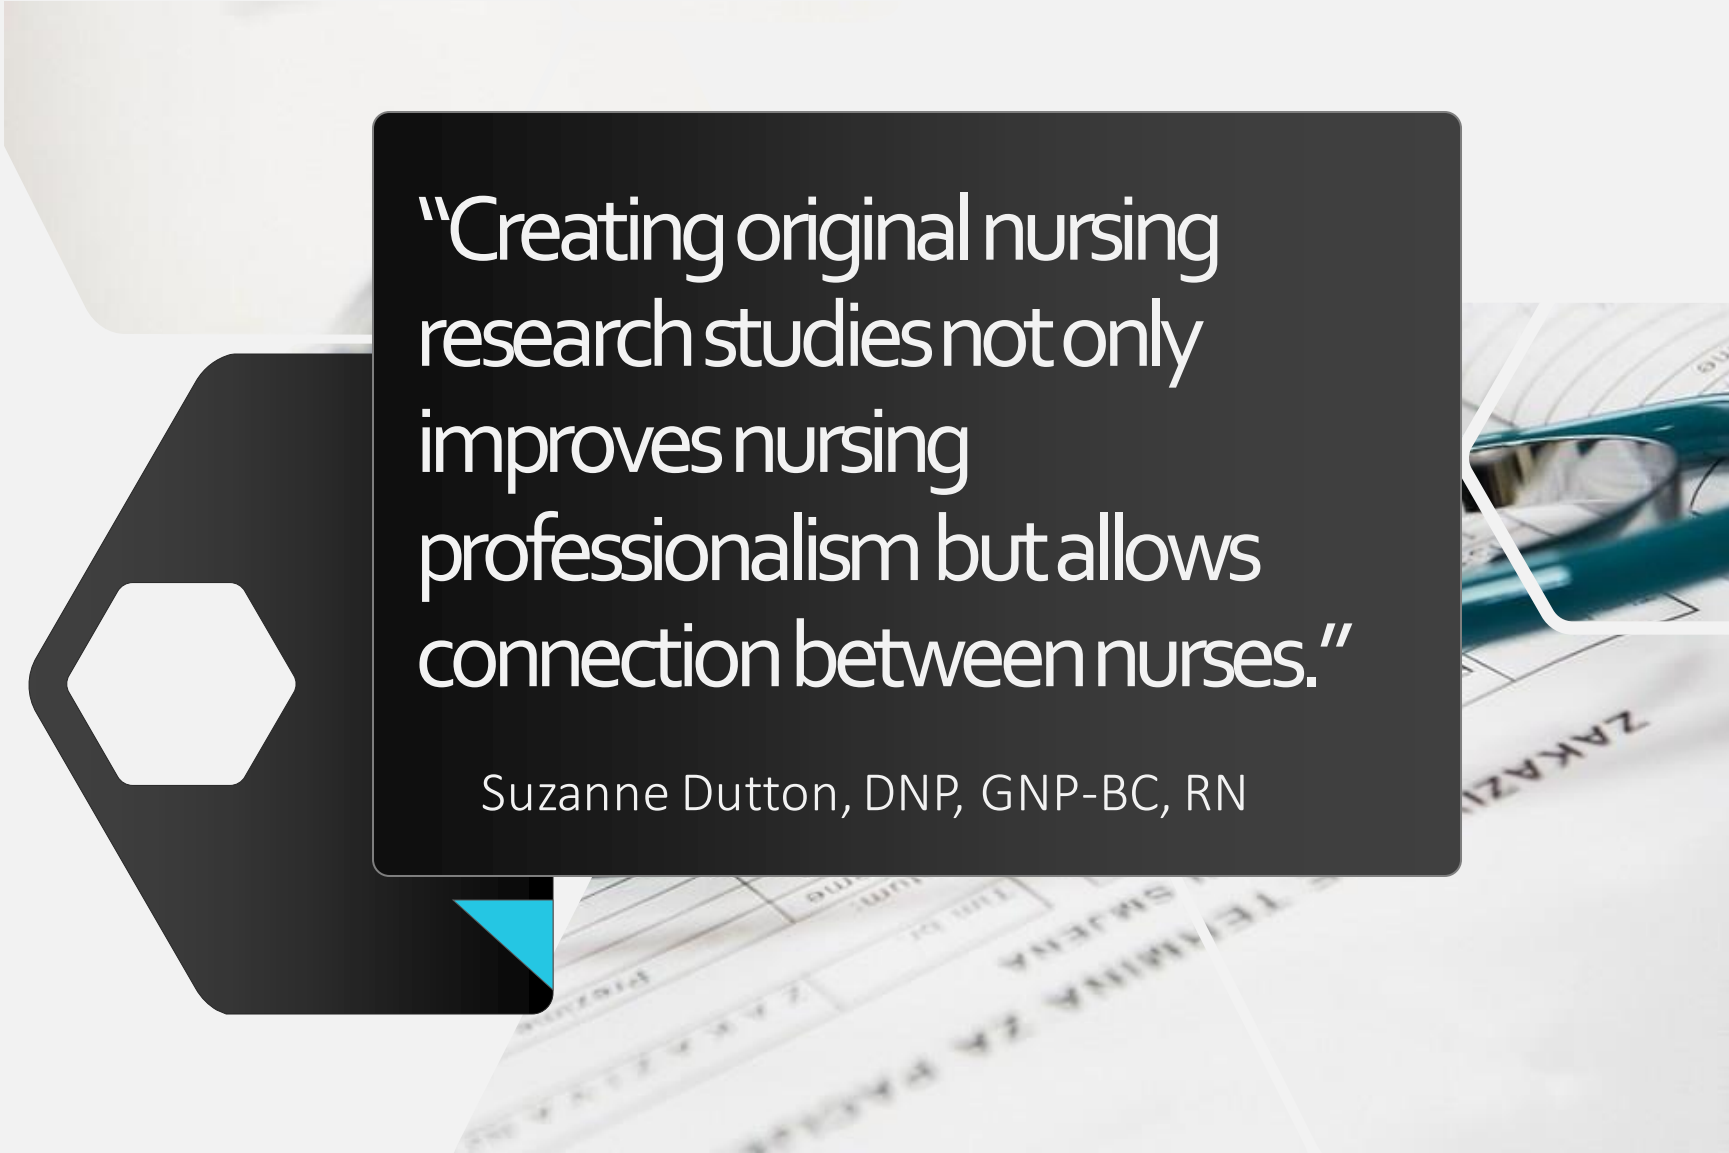

Organization and Implementation of a Stroke Center in Panamá, a Model for Implementation of Stroke Centers in Low and Middle Income Countries

Assessing knowledge, attitudes and beliefs of nurses about LGBTQ older adults using a documentary video

Improving lung cancer screening: An equitable strategy through a tobacco treatment clinic

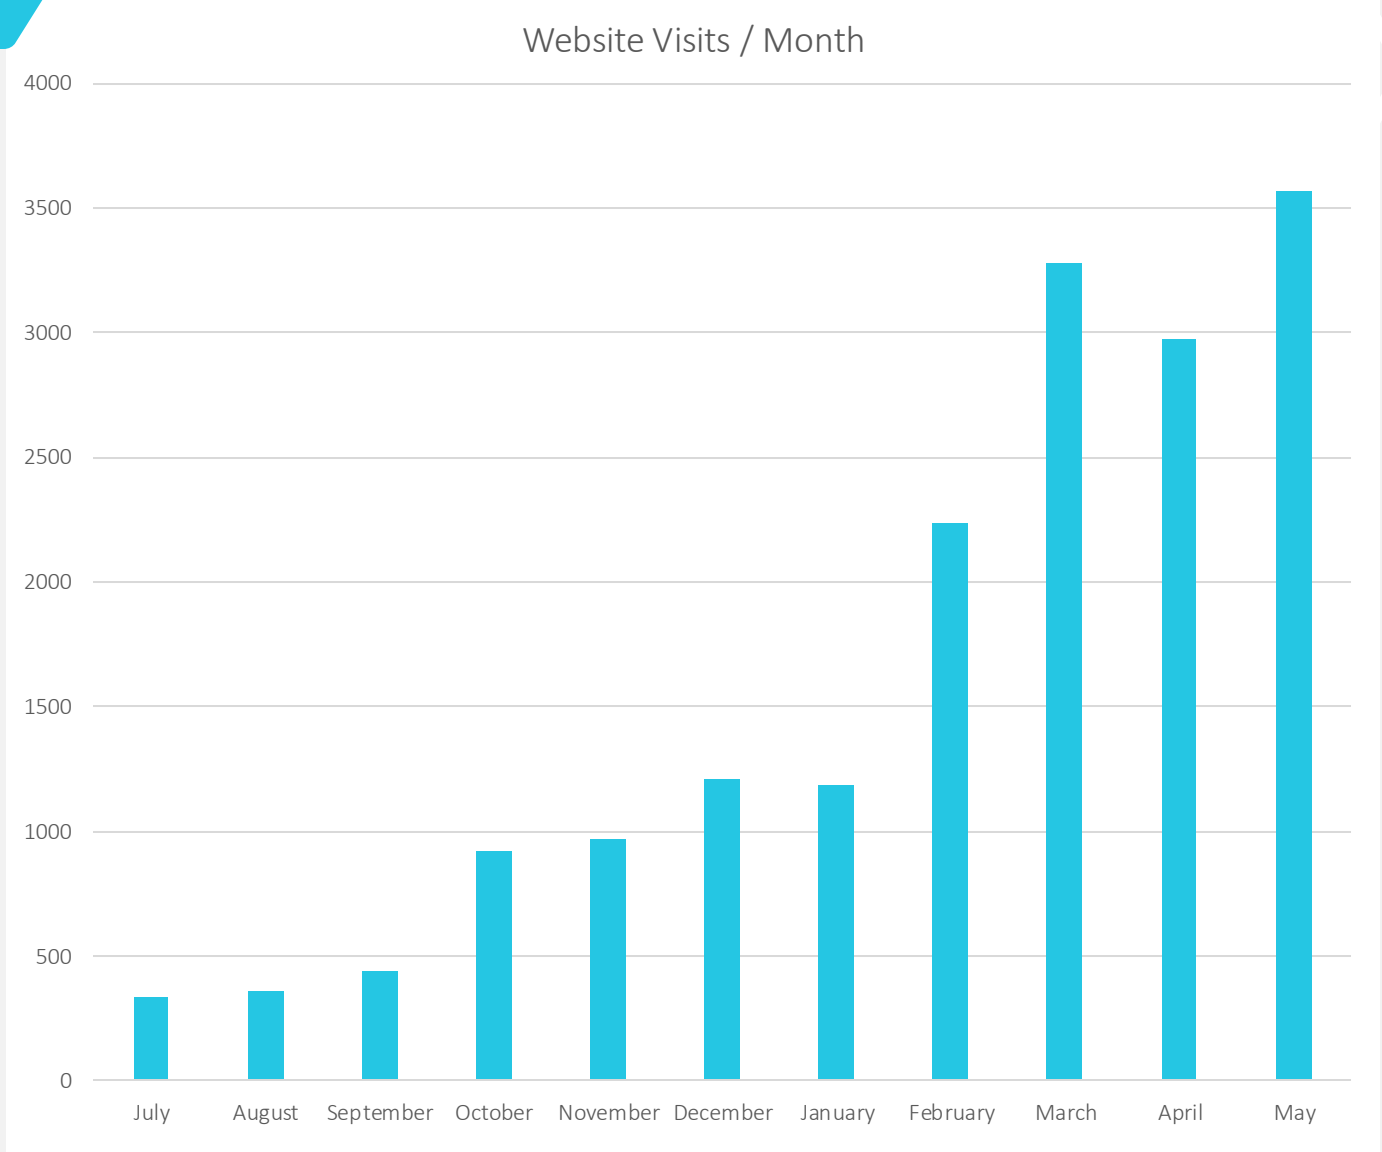

“Creating original nursing research studies not only improves nursing professionalism but allows connection between nurses.”

Suzanne Dutton, DNP, GNP-BC, RN

The CNI Website

We redesigned our website in FY 2022, leading to a **tenfold increase** in traffic, **14,000** new visitors and **4000** returning users.

The website houses our educational materials, resources for inquiry work, and content from past events.

July 2021 to May 2022

Center for Nursing Inquiry Content

We utilize different avenues for content delivery to ensure we are meeting the needs of our audience.

- **Workshops**

We taught three workshops on the following subjects;

- *The Three Forms of Inquiry*
- *Tools for Inquiry Work*
- *Dissemination*

- **Journal Club**

We hosted a journal club three times to discuss different articles or feature a visiting nurse author.

- **Podcasts / Videos**

We produced 11 new podcasts, bringing the total to 36. CNI podcasts were **played over 1,500 times – for almost 400 hours.**

We added twelve new videos to our YouTube account – we now have 34 videos which received almost **3,000 views.**

- **Outreach**

We expanded our outreach and marketing efforts, increasing subscribers to our MailChimp email marketing account by almost **200%.**

- **Social Media**

We launched a *LinkedIn* account - publishing articles to support nurses on their inquiry journey and recognize JHHS nurses involved in inquiry work.

We expanded our private Facebook group where **membership grew by 24%.** The CNI Facebook group serves as a resource for nurses interested in pursuing inquiry work.

We hold monthly office hours to provide just in time inquiry project help, abstract development, or manuscript review.

SHINE Conference

JHHS Showcase for Hopkins Inquiry and Nursing Excellence

Despite the pandemic, CNI launched the SHINE Conference, holding a hybrid virtual/in-person conference open to the entire health system.

SHINE is an annual celebration of nursing innovation, discovery and education. The event, building from the Nursing Scholars Program at JHH, is open to all nursing staff members of any level or specialty, and provides the opportunity to learn from and share knowledge with nursing peers across Johns Hopkins.

SHINE features inspiring expert presenters, educational breakout sessions with subject matter experts and dozens of poster presentations showcasing nurse-led projects.

In Fy22 the SHINE conference hosted:

- ❖ 500+ nurses in attendance
- ❖ 10 podium presentations
- ❖ 52 poster presentations
- ❖ 15 expert presenters

All Children's Hospital Evidence Based Practice Cohort

The EBP Cohort is part of the Center for Nursing Inquiry's mission to increase the capacity of Hopkins nurses to engage in robust inquiry projects. The program was made possible by a partnership with the Institute for Johns Hopkins Nursing and the CNI.

The ACH EBP cohort members are doing an EBP project that will determine the best practices for ensuring traveling clinical staff provide safe patient care to reduce adverse safety events.

“The more I learn about EBP, the more I realize what I don't know! I have enjoyed being a part of the EBP cohort and gaining more knowledge about this essential topic”

Michelle Cook MS, RN, NPD-BC,
CHPPN

EBP in NRP

The Center for Nursing Inquiry completed an assessment of EBP Content in NRP in FY 2022. Changes that will be launched across the health system on July 1, 2022, include:

- Redesigned curriculum, including **10 new lessons** with accompanying material
- A new approach to case studies that includes **actionable recommendations** and a **focus on implementation**
- A new **monitoring and evaluation plan**.

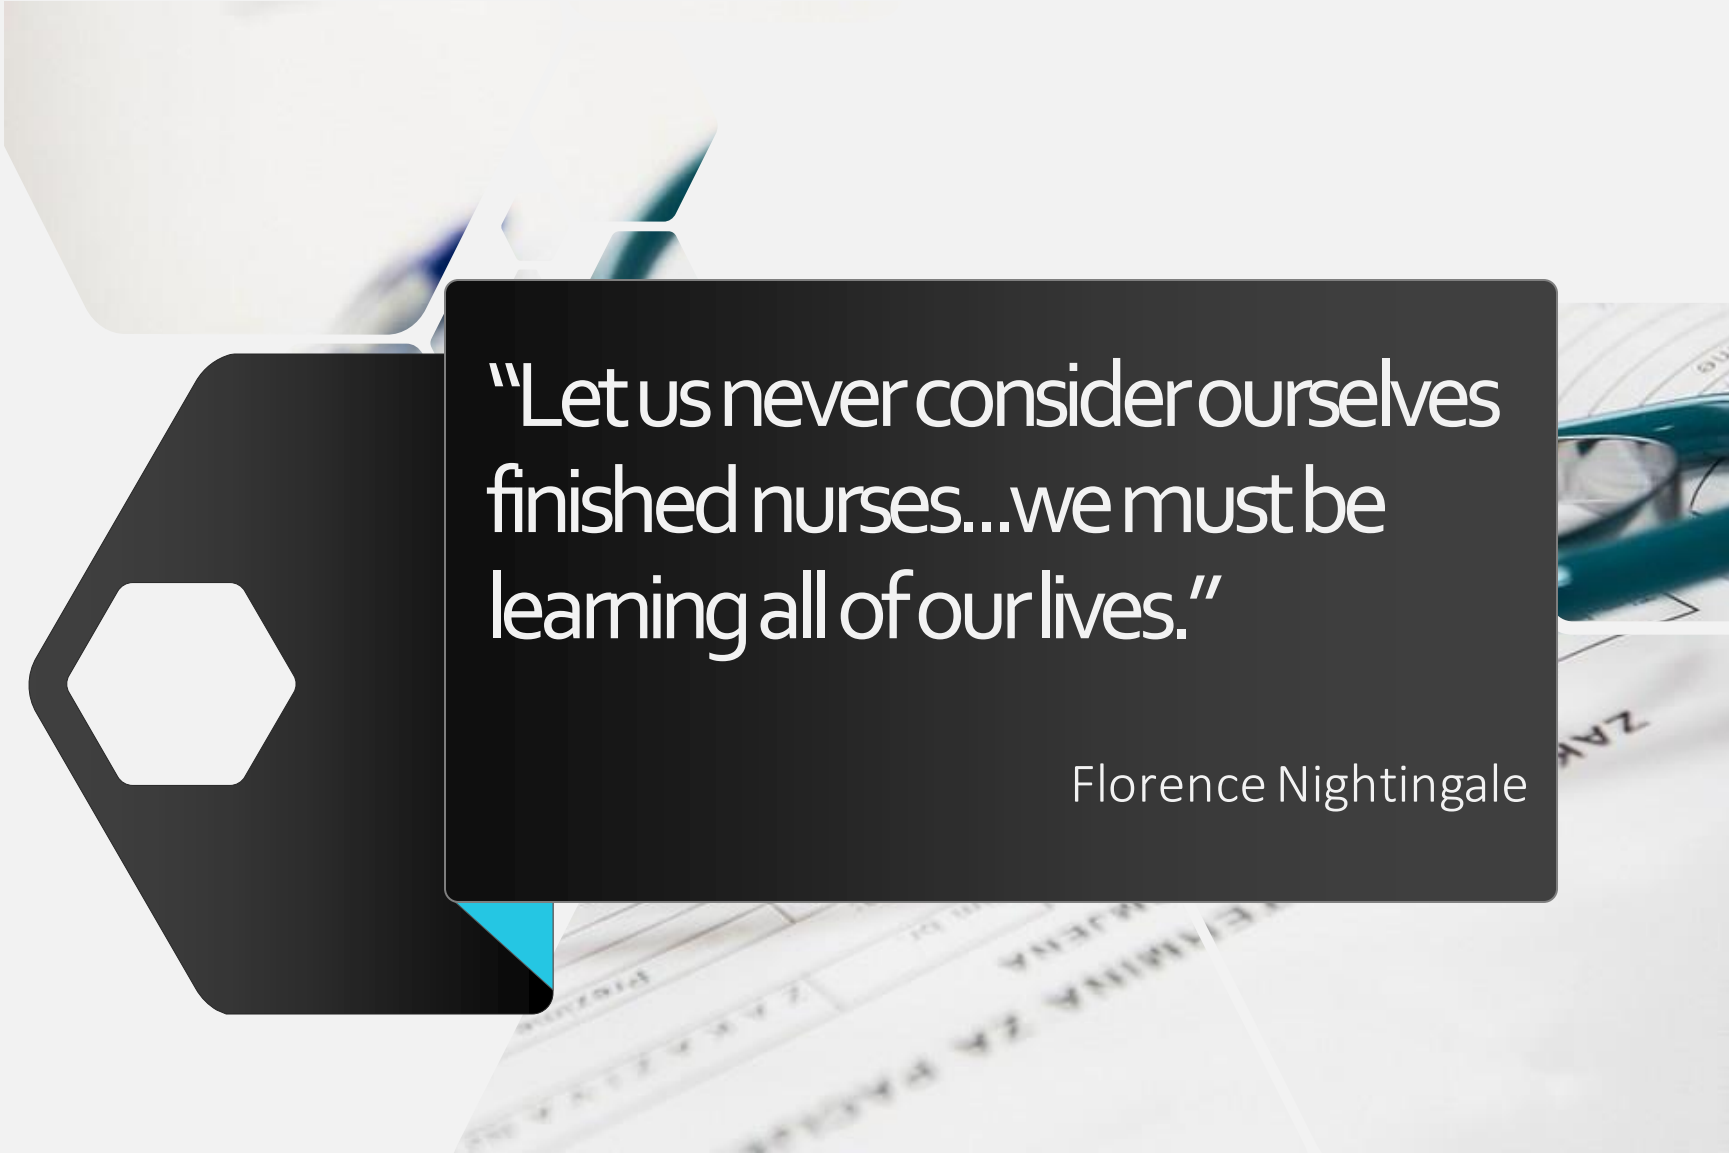

Nurse Scholar Fellowship 2022/2023

The Johns Hopkins Nurse Scholar Fellowship, is a year-long program aimed at building nursing expertise in inquiry work. The program provides nurses with the foundation needed to participate in research, evidence-based practice (EBP), and quality improvement work (QI). In addition to classroom content and hands-on training, Fellows will have the opportunity to interact with nurse leaders and inquiry experts.

We welcomed Andre Gnie, Anna Noguchi, Carrina Emilo, Chana Peele, Eric Beedle, Jamie Guillergan, Kaitlin Santhin, Kristy Wormack, Michael Mannello, Sarah Zackman, Sterling Wilmer and Stephanie Brown to our 2022/2023 Fellowship in June. The Fellows will embark on an inquiry journey looking at the fourth aim of the quadruple aim.

"Let us never consider ourselves finished nurses...we must be learning all of our lives."

Florence Nightingale

Stay informed. Get involved. Do great things.
