

The Johns Hopkins Hospital and University of Delaware Acute Care Physical Therapy Residency

This program aims to develop physical therapists that will:

- Provide innovative and evidence based care to the medically complex population.
- Advocate for and advance the integral role of physical therapy and rehabilitation in the management and prevention of impairments.
- Possess system skills such as outcome measurement, quality improvement, project management and leadership within an interdisciplinary team.
- Act as strong patient and family advocates.

Program benefits:

- Salary and full-time benefits
- One-on-one clinical mentoring
- Variety of unique didactic experiences
- Opportunity to participate in clinical research and graduate level teaching
- Leadership skill development

Details:

- 12-month long program
- Clinical exposure to all acute care physical therapy service lines including general medicine, oncology, orthopaedics, neurosciences, and cardiopulmonary populations
- Clinical practice throughout the continuum of care from ICU to step down floors on all service lines.
- >150 hours 1:1 clinical mentorship
- > 300 hours of structured didactic curriculum
- Participation in scholarly activities including, journal club, case presentations, multidisciplinary education, and clinical education.
- Research opportunities at Johns Hopkins Hospital focused on an interdisciplinary approach to preventing harms of immobility in the hospital
- Mentored classroom teaching opportunities at the University of Delaware DPT program

Since it was founded more than 100 years ago, The Johns Hopkins Hospital, an academic medical center located in Baltimore, MD, has been at the forefront of discovery, innovation and medical advances.

Its reputation for excellence has earned a ranking among “America’s Best Hospitals” by *U.S. News and World Report* for more than two decades.
