

# The Johns Hopkins Hospital and George Washington University Orthopaedic Physical Therapy Residency

## This program aims to develop physical therapists that will:

- Provide specialist-level examination, evaluation, and plan of care development/implementation for clients with neuro-musculoskeletal related movement restrictions.
- Participate as members of the interprofessional health care team to increase efficacy and efficiency of care.
- Employ sound andragogical principles for effective clinical mentoring, entry-level classroom teaching and patient/client teaching.
- Be reflective practitioners who embrace the core values of the profession, demonstrate respect for individuals, their cultures and the community at large.

## Program benefits:

- Salary and full-time benefits
- Didactic education opportunities
- 1:1 mentorship from board certified and fellowship trained orthopedic specialists
- ABPTS OCS preparation
- Conference attendance at Combined Section Meetings
- Opportunity to participate in graduate level teaching
- Leadership skill development
