Johns Hopkins Hospital Pediatric Acute Care Speech-Language Pathology Clinical Fellowship

This program aims to develop pediatric speech language pathologists that will:

- Provide evidence based care to the medically complex infants and children.
- Advocate for and advance the integral role of pediatric speech-language pathology and rehabilitation in the evaluation, intervention, and prevention of impairments.
- Possess system skills such as outcome measurement, quality improvement, project management and leadership within an interdisciplinary team.
- · Act as strong patient and family advocates

Program benefits:

- Salary and full-time benefits.
- One-on-one clinical mentoring.
- Variety of unique didactic experiences.
- Opportunity to participate in clinical research.
- Leadership skill development.

Details:

We offer a 12-month fellowship with a focus on acute care. The acute care fellowship includes 30 hours of clinical work and 20 hours of didactic experiences and research exposure.

- Clinical evaluation and treatment experience in the areas of speech, language, cognition, feeding and swallowing, and alternative communication.
- One-on-one mentorship with experienced SLPs.
- Didactic experience, including: participation in multidisciplinary rounds, monthly swallowing conference and monthly journal club meetings.
- Participation in scholarly activities including: case presentations, multidisciplinary education, and research project with the opportunity to present at a conference or submit for publication.
- Participation in Johns Hopkins Research Development Program.
