

The Johns Hopkins Hospital Adult Neurological Outpatient Speech-Language Pathology Clinical Fellowship Program

This program aims to develop speech language pathologists that will:

- Provide innovative and evidence based care to the medically complex population.
- Advocate for and advance the integral role of speech-language pathology and rehabilitation in the management and prevention of impairments.
- Possess system skills such as outcome measurement, quality improvement, project management and leadership within an interdisciplinary team.
- Act as strong patient and family advocates.

Program benefits:

- Salary and full-time benefits.
- One-on-one clinical mentoring.
- Variety of unique didactic experiences.
- Opportunity to participate in clinical research.
- Leadership skill development.
- Opportunity to complete several clinical certifications.

Details:

We offer a 13-month fellowship experience with a focus on outpatient care at the Johns Hopkins Hospital. The outpatient fellowship includes 40 hours of clinical work and at least 10 hours of didactic experiences and research exposure each week.

- Clinical evaluation and treatment experience in the areas of motor speech, language, cognition, swallowing, speech generating devices and alternative communication.
- One-on-one mentorship with experienced SLPs.
- Didactic experience, including: surgery observations, participation in multidisciplinary rounds, multidisciplinary swallowing conference, and multidisciplinary clinical observations.
- MBS-IMP certification.
- Participation in scholarly activities including: case presentations, multidisciplinary education, and research project with the opportunity to present at a conference or submit for publication.
- Leadership experience including mentorship of the next CFY.
