FETCH *a cure*

Bingo Fundraiser

September 25, 2022 6:00-9:00 PM at the Olney Winery

18127 Town Center Drive, Olney, MD 20832 301-570-1907

Enjoy a fun night playing Bingo and enjoying wine as we raise awareness for pet owners about the many resources available to them when they are faced with the dilemma of a cancer-stricken pet.

Tickets: \$30 online at <https://www.olneywinery.com/events/fetch-a-cure/> or \$40 at the door. Each ticket includes:

- A complimentary glass of wine and finger food
- A BINGO card for a chance to win prizes. (Additional cards available for \$5 each)
- \$3.00 wine voucher from Olney Winery to be applied to your first bottle of wine purchased.

Each bottle purchased enters you into a fantastic opportunity to win two bottles of wine donated by Olney Winery. Bottles purchased on-site can be enjoyed and recorked to go home with you.

Your participation in this event benefits FETCH a Cure and the Center for Image-Guided Animal Therapy (CIGAT). A portion of each ticket sold is donated directly as well as a portion of each bottle of wine sold.

Did you ever wonder what your options are when your furry family member gets sick with cancer? Where do you turn? How can you help your pet? How can you afford to treat your pet's illness? How can helping to cure your pet also help to cure a human with the same cancer or illness? These were questions the Werbers asked in January 2019 when their furry child Myko, was diagnosed with osteosarcoma – bone cancer.

We were fortunate that Myko had a wonderful orthopedic surgeon, Dr. Peter Lotsikas (Skylos Sports Medicine), who helped us with all the difficult decisions and who knew all the right people to help give Myko the best chance at kicking cancer and living a longer life. Dr. Lotsikas got us in a new STING clinical trial with Dr. Kraitchman of CIGAT at Johns Hopkins, and he introduced us to Dr. Michelle Silver at AVIM&O, who performed the carboplatin chemotherapy treatments. Dr. Silver then informed us of FetchACure.org who provided funding for Myko's treatments.

It takes a village to not only raise a child but a furry family member too.
