

Download your medical & security assistance app today!

Did you know that Johns Hopkins provides comprehensive medical, security, and travel assistance programs for business travelers and expatriates? In partnership with Healix International, Johns Hopkins offers you access to a consolidated resource of security, medical, and risk information via a mobile app. Here is what you need to know!

What should you use the app for?

- Register for and receive real-time alerts about current health issues, natural disasters, social unrest, crime events and transport disruption that could impact your trip.
- Discover comprehensive and real-time information on country risk levels, general travel advice, vaccination requirements, travel alerts for all countries and major cities.

How do you get your app?
