

Johns Hopkins School of Medicine Graduate Programs – Admissions Information for the Cross Disciplinary Graduate Program in Biomedical Sciences (XDBio)

Program Admissions Details:

In 2022, the XDBio PhD Program admitted 2 students. Students in this program are paid a stipend to support their living expenses (the 2022-2023 stipend is \$35,608). Student stipends are subject to taxes. Tuition costs for SOM courses are covered by the school for students in this program (i.e., not paid by the student). Medical, dental and vision insurance are covered by the XDBio Program. Insurance benefits for the student's immediate family are available at additional cost to the student. Students from Maryland with student loans may receive State tax benefits. More information is available here on our [Financial Aid page](#). The University does not provide housing, though the [Office of Housing and Residential Life](#) will provide a list of available housing near the campus.

Some students in this program are covered by Federal training grants. Others applied for individual scholarships and received funding. Applicants are encouraged (but not required) to apply for funding before beginning their training. Information about funding opportunities for U.S. students (including NSF GFRP and F31 grants) can be found [here](#).

Program Details:

The application for this program is open from 9/1/2022 to 12/1/2022. In the time before the application is open, applicants may log in and begin their applications. The application can only be submitted in the period when the application is open.

Academic History & Prior Research Experience:

Applicants will need to list all colleges and universities they attended. A transcript will need to be uploaded from each school attended. Applicants with prior research experience share information about this including the institution and mentor, dates of participation, and any publications resulting from the experience.

Admissions requirements:

- Applicants are **not** required to take the GRE for this program.
- Applicants must submit a Curriculum Vitae (C.V.). This can be updated after the application is submitted, as long as the updates are before the graduate program's deadline.
- Applicants must submit two personal statements:
 - o The academic and scientific background of the applicant and how XDBio fits into the applicant's research and career interests;
 - o The research experience of the applicant. Please describe at least one project in detail and include what future directions the project could take.
- Applicants must identify **three** people who are familiar with the applicant's work and provide contact info for these references. The contact info will be entered into the application, and SOM will contact the references and ask them to submit letters of recommendation on behalf of the applicant.

International Students:

- The University will sponsor visas for accepted students.
- International students whose native language is not English are required to complete the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS). When taking the exam, applicants should request official scores be reported to Institution Code 5316 (the Department Code is not necessary). To report official IELTS test scores, please include the Test Report Form (TRF) verification number on the application. Scores must be received before the application deadline.
- The TOEFL requirement will be waived if the applicant has completed their degree at an U.S. institution, or is currently enrolled and will receive a degree from a university within the U.S. prior to matriculation at JHU-SOM.
- All transcripts, letters of recommendation, and parts of the Admissions application must be in English. The approved transcript service for use by international students is WES.
- International students are not eligible for waivers of the Admissions Application fees.

Getting to know you:

- Parts of the Admissions application collect information for mandatory reporting. These parts may ask applicants to select a pre-set category for gender, race or ethnicity. Other sections of the application allow applicants to share more details about how they choose to describe themselves.
- Application Fee waivers may be given to applicants based on family income (U.S. citizens only). The term *family* is determined by your definition. Families may involve adoptions, separations, and many other variations.

Admissions fees:

- An admissions fee of \$115 dollars is required and must be submitted using a credit card. In some cases, this fee will cover applications to more than one program. For a complete description of the fee waiver process, please see the [Application Fees and Fee Waiver Instructions](#) on the On-Campus Admission website. Fee waivers are only available for U.S. citizens.

Application status website:

- Once their application is submitted, the applicant may follow its progress on the Application Status page. This page can be accessed upon completion of the application. The status page has the most current information.

Admission timeline:

- Review of applications will begin immediately after the application deadline. XDBio will begin reviewing applications when they are received, so submitting your application before the deadline may be helpful.
- The XDBio Program will contact those applicants who will be invited to interview for the program. Interviews may be conducted in-person or possibly by Zoom. We will provide updates regarding the 2023 interview cycle via our website. You may also contact Ms. Sharon Welling, Administrative Director for the XDBio Program (swelling@jhmi.edu) with any questions regarding the interview process.

XDBio PhD Program – Admissions Information

- Interviews for this program will occur in February 2023. Letters describing acceptance, wait list status, or rejection will be sent by email. This information will also be available on the Application status website. Applicants selected for acceptance must choose to accept or reject the offer by April 15. On April 15, all accepted offers become binding.
- Orientation will be held on the third week of August 2023. Students will begin their training at this time. The NTP only accepts students for fall matriculation.

Applicant survey:

- Applicants will receive a survey during the third week of April (after April 15) where they can provide feedback about their experience with the Admissions process. The survey will also ask questions about the disability status of applicants.

Upon acceptance:

- Accepted students will undergo a criminal background check.
- Accepted students must submit official transcripts to the School of Medicine Registrar. This may be in the form of a digital transcript, which is submitted through a transcript service approved by the Johns Hopkins School of Medicine Registrar. The approved transcript service for international students is WES. Transcripts may also be mailed directly from the Accepted student's school to the School of Medicine Registrar. Detailed instructions will be provided upon acceptance.

Communicating with the program:

- XDBio contact: XDBio@jhmi.edu
- General questions: GradAdmissions@jhmi.edu
