## SYSTEM INNOVATION AND QUALITY IMPROVEMENT ACTIVITIES

**System Innovation and Quality Improvement efforts within JHM:** None

**System Innovation and Quality Improvement efforts outside of JHM:**

- 2010 **Invited Participant**, Current Scenario of CMV-Retinitis in Venezuela. International Consensus Conference on AIDS-Related CMV-Retinitis. Los Angeles, CA. A publication regarding the management and prevention of HIV-related eye disease is in press.
- 2012 **Invited Participant**, Latin American Consensus About Age-related Macular Degeneration (AMD). Pan-American Retina & Vitreous Society (PRVS). Cartagena de Indias, Colombia. A publication regarding the management and prevention of AMD was released by PRVS in May 2012.

**System Innovation and Quality Improvement Program Building/ Leadership:**

**Production of guidelines and/or protocols:** None

## **System Innovation and Quality Improvement Program Building/Leadership:**

- 2001-2011      Arevalo-Coutinho Foundation (FACO) Vitreoretinal Surgery Quality Assurance and Improvement Program  
Formal quality assurance and improvement program for vitreoretinal surgery in which intermediate outcomes and process measures are monitored every 3 months. The quality assurance and improvement programs are regularly reviewed by the board of the foundation and have successfully taken the vitreoretinal surgery program at FACO through several years of continuous funding. The programs have allowed for significant improvements in several clinical outcomes including the prevention of blindness due to retinal detachment through prophylactic therapy.  
**Role:** Developed and implemented the program that continues in Venezuela thanks to these efforts for 10 years.
- 2006- present      The Panamerican Collaborative Retina Study Group (PACORES) Project  
The project harnesses the power of a supranational group in 18 centers in 13 countries in Latin America to study retinal diseases. Many scientific papers and posters have been presented at international meetings. The number of presentations on behalf of PACORES in international meetings is already 152. The papers presented there are already under consideration and 30 have already been published in PubMed cited journals. Our preliminary work shows that by pooling talent, hard work and sound scientific principles, it is possible to produce scientific work in an underdeveloped region of the world. In addition, PACORES has started to be imitated by other subspecialties' groups affiliated to the Pan-American Association of Ophthalmology (PAAO). We believe that our efforts are starting to change the paradigm of ophthalmology in Latin America, and may help raise both the academic level of our research and ophthalmology as a whole. In the end, we hope that this will benefit the health of our patients - our ultimate goal.  
**Role:** Chair.
- 2012- present      The KKESH Uveitis Survey Study Group Project  
The project harnesses the power of a national group in 14 uveitis specialists and different subspecialties from King Khaled Eye Specialist Hospital (KKESH) to study uveitis. We are studying the results of our registry of 25 years at KKESH. One scientific paper and two posters have been accepted for presentation at international meetings for this new group. Our preliminary work shows that we can produce high quality scientific work in an underdeveloped region of the world. Our goal is to prevent blindness due to uveitis that has demonstrated to be prevalent in the Middle East.  
**Role:** Chair.
- 2012- present      The KKESH Collaborative Retina Study Group Project  
The project harnesses the power of a national group in 10 retina specialists, 16 fellows, and different subspecialty collaborators from King Khaled Eye Specialist Hospital (KKESH) to study retinal diseases and surgery. Two projects mark the beginning for this new group. Our preliminary work shows that we can produce high quality scientific work in an underdeveloped region of the world. Our goal is to prevent blindness due to retinal diseases that has demonstrated to be prevalent in the Middle East.  
**Role:** Chair.
