

Dear Dr. Frank,

I want to thank you for choosing to be the anesthesiologist for my back surgery. Knowing that you are the head of the Bloodless Medicine Program and brought your special skills to prevent me from losing too much blood put my mind at ease. I've been told that you and Dr. Sciubba are the "Dream Team" - that I had the best. From the comments of nurses and doctors, it's obvious that you and Dr. Sciubba did your absolute best. Thank you!

Thank you for taking such great care of me. I truly appreciated it. I am also thankful for the Bloodless Medicine Program.

Sincerely yours,

D.C., Maryland
