The three goals of MRGP are to: 1. Develop capacity at minority serving institutions to research health disparities and social determinants of health; 2. Understand the root cause of issues – processes, practices, behaviors, and burdens – that lead to health disparities and identify replicable interventions; and 3. Strengthen CMS programs by disseminating best practices uncovered through funded research.

ADDITIONAL INFORMATION

Description: The purpose of the Minority Research Grant Program (MRGP) to assist CMS in accomplishing its research and design (R&D) functions, particularly with respect to improving access and services for minority and under-served Medicare and Medicaid beneficiaries, enhancing the capacity of individual investigators to participate in CMS’ R&D programs, and enhancing the institutional capacity of minority serving institutions to serve as effective partners in CMS’ programs.
