

Division of Endocrinology, Diabetes, & Metabolism

Johns Hopkins Bayview Medical Center

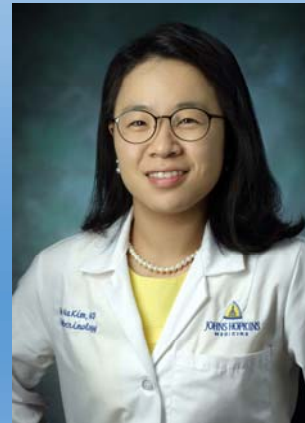

The Division of Endocrinology, Diabetes & Metabolism is pleased to announce the addition of several new clinicians to our team. Their primary clinical practices will be at Johns Hopkins Bayview Medical Center.

General Endocrinology and Diabetes

Dr. Echouffo is accepting patients with general endocrine disorders and diabetes.

General Endocrinology and Metabolic Bone Disorders

Dr. Han Na Kim is accepting patients with general endocrine disorders (including metabolic bone conditions).

Together with **Caitlin Nass, CRNP** and **Marybeth Carlin, RN**, our diabetes team is available to see patients requiring urgent follow-up (such as post-discharge), with uncontrolled glucose, or requiring more complex treatment (insulin pumps and continuous glucose monitors).

**To schedule an appointment/ refer patients,
please place referral in Epic and call**

410-955-9270.
