Job Description- Clerkship Site Director

Perdana University Graduate School of Medicine (PUGSOM), in collaboration with Johns Hopkins University School of Medicine, is the first graduate school of medicine in Malaysia offering a four-year doctorate of medicine degree. The pioneering Class of 2015 enrolled in September 2011 and began its foray into core clinical clerkships in July 2013 primarily at Hospital Kuala Lumpur (HKL), the largest hospital in Southeast Asia.

PUGSOM utilizes the Genes to Society curriculum initiated at Johns Hopkins in 2009. Core Clinical Clerkships in Medicine, Pediatrics, Surgery, Obstetrics & Gynecology, and Neurology/Psychiatry each last for approximately 9 weeks with a one-week introduction (PRECEDE) of simulation and advanced clinical skills training. Advanced clinical clerkships will run for the first time beginning in July 2014 and will include Sub-Internships, Anesthesiology and Critical Care, Chronic Care and Rehabilitation and Rural/Community Health and Public Health. Year 4 rotations will last approximately 4-6 weeks each.

We are actively recruiting Clerkship Directors in these disciplines to assist with Year 3 and Year 4 course development. We are seeking senior/chief residents, fellows, &/or young faculty with a strong interest in medical education to assume the position of Clerkship Site Director for the following Core Clerkships:

** Internal Medicine
** Pediatrics
** Surgery
** Obstetrics & Gynecology
** Neurology
** Psychiatry
** Family Practice/Rural Health/Community and Public Health
** Chronic Care and Rehabilitation
** Anesthesiology and Critical Care Medicine

Clerkships will each accommodate 6-8 medical students at a time. It is not anticipated that the clerkship site director will have any direct clinical or call responsibility.

Responsibilities are to:

1) Orchestrate and oversee daily student activities on respective clerkship (including bedside rounds, discussions, tutorials, and other similarly related educational activities) in accordance with the Genes to Society curriculum at Johns Hopkins University School of Medicine

2) Provide ongoing formative feedback to students
3) Objectively assess core competencies required of all PUGSOM students
4) Liaise with Ministry of Health consultants, house/medical officers, and PUGSOM
5) Discuss student progress at frequent intervals with relevant faculty at PUGSOM
6) Review and revise respective specialty curriculum in concert with other Clerkship Site Directors, Director of Clinical Clerkships and Vice Dean of Education
7) Actively learn about good practices in medical education
8) Participate in medical education activities of the assigned Hospital or Health System
Requirements:

1) Completion of an accredited residency program in respective specialty by July 1, 2014
2) Strong interest in medical education
3) Willingness to live and travel within Malaysia for a minimum of one year
