The Division of General Internal Medicine in the Johns Hopkins School of Medicine and the Johns Hopkins Berman Institute of Bioethics invite applications for a full-time position with a focus on bioethics and medicine. This is a full-time tenure-track faculty position with an appointment in the Division of General Internal Medicine and a core faculty affiliation in the Berman Institute of Bioethics. We encourage applications from junior and mid-level scholars.

Applicants should have an MD or equivalent graduate degree with the potential for or a demonstrated record of distinguished scholarship at the intersection of bioethics and medicine. Successful applicants will be expected to maintain a part-time clinical practice (approximately 20% time), an ethics service activity (e.g., serve on an Institutional Review Board, approximately 10% time), and engage in a range of educational activities. These might include teaching a course in the Master of Bioethics Program, leading sessions with medical students and/or residents, and mentoring post-doctoral fellows in bioethics. Ideal candidates will have a track record of peer-reviewed publication and demonstrated capabilities and/or potential in developing an externally-funded research program.

Successful applicants will join thriving communities of scholars within the Johns Hopkins Berman Institute of Bioethics and the Johns Hopkins School of Medicine’s Division of General Internal Medicine. The Berman Institute of Bioethics is one of the largest and most highly-regarded bioethics programs in the world and includes scholars with backgrounds in public health, health policy, philosophy, medicine, nursing, social science, biomedical science, global bioethics, and law. Faculty of the Berman Institute have appointments in five schools of the University – Public Health, Arts and Sciences, Medicine, Nursing, and the School of Advanced International Studies. The School of Medicine is one of the top medical schools in the country. The Division of General Internal Medicine has more than 90 full-time faculty members who are engaged in a wide-array of clinical, teaching and research activities.

The search committee for this position expects to review applications in December, and thus application materials should be submitted by December 1, 2019. Johns Hopkins is committed to excellence and to finding candidates who are the right fit for this interdisciplinary environment. The position will remain open until the appropriate candidates are identified.

Applicants for the position should submit a cover letter and current CV to Interfolio, which is the University’s secure online search platform [http://apply.interfolio.com/70772](http://apply.interfolio.com/70772). Cover letters should be addressed to Jeremy Sugarman, MD, MPH, MA, Chair of the Search Committee. Please direct all questions about this search to Erin Law, Human Resource Coordinator, Berman Institute of Bioethics, at 410-614-5240 or elaw1@jhu.edu. The Johns Hopkins University is an equal opportunity/affirmative action employer committed to recruiting, supporting, and fostering a diverse community of outstanding faculty, staff, and students. All applicants who share this goal are encouraged to apply.
The successful candidate(s) for this position will be subject to a pre-employment background check.

If you are interested in applying for employment with The Johns Hopkins University and require special assistance or accommodation during any part of the pre-employment process, please contact the HR Business Services Office at jhurecruitment@jhu.edu. For TTY users, call via Maryland Relay or dial 711.

The following additional provisions may apply depending on which campus you will work. Your recruiter will advise accordingly.

During the Influenza ("the flu") season, as a condition of employment, The Johns Hopkins Institutions require all employees who provide ongoing services to patients or work in patient care or clinical care areas to have an annual influenza vaccination or possess an approved medical or religious exception. Failure to meet this requirement may result in termination of employment.

The pre-employment physical for positions in clinical areas, laboratories, working with research subjects, or involving community contact requires documentation of immune status against Rubella (German measles), Rubeola (Measles), Mumps, Varicella (chickenpox), Hepatitis B and documentation of having received the Tdap (Tetanus, diphtheria, pertussis) vaccination. This may include documentation of having two (2) MMR vaccines; two (2) Varicella vaccines; or antibody status to these diseases from laboratory testing. Blood tests for immunities to these diseases are ordinarily included in the pre-employment physical exam except for those employees who provide results of blood tests or immunization documentation from their own health care providers. Any vaccinations required for these diseases will be given at no cost in our Occupational Health office.
