The Johns Hopkins Women's Health Research Group is pleased to announce the second

Women’s Health Research Symposium

FOR FACULTY, STUDENTS, AND FELLOWS IN THE SCHOOLS OF MEDICINE, NURSING, AND PUBLIC HEALTH

Wednesday, May 6, 2009
12:30 – 3:30pm
Mountcastle Auditorium
Pre-clinical Teaching Building
725 North Wolfe Street

Please plan to attend! Learn more about women’s health research at Johns Hopkins, share your own research interests, and form collaborations.

Presentations from:

Sharon J. Olsen, PhD(c), RN, AOCN, Assistant Professor in the School of Nursing
Strategies to address the shortage of providers caring for breast cancer survivors

Barbara R. Migeon, MD, Professor, Departments of Pediatrics and Biology, Institute of Genetic Medicine
Mosaicism, X-chromosome inactivation and women’s health

Karen Bandeen-Roche, PhD, Professor and Chair of the Department of Biostatistics, School of Public Health
Latent variable modeling to predict frailty in older women

Lisa Cooper, MD, MPH, Professor of Medicine and Epidemiology
Overcoming racial and ethnic disparities in women’s healthcare

Networking reception to follow.
