

MyChart: 4 simple steps to connect with your health

With MyChart you can:

SEND emails to your doctors.

ASK to refill your prescriptions.

REVIEW your test results.

LOOK UP your medical appointments.

To activate your MyChart account, you will need: internet connection, a valid activation code, your phone number and a personal email address.

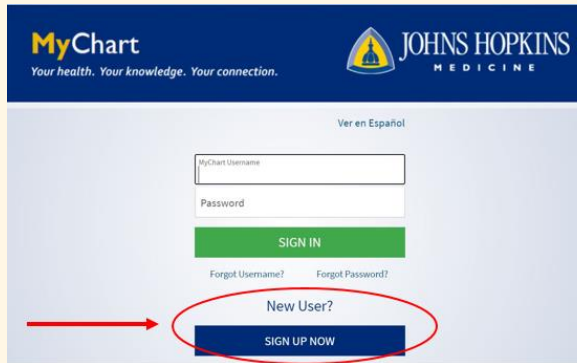

See the other side for details.

JOHNS HOPKINS
MEDICINE

1. In your Web browser, type **mychart.hopkinsmedicine.org**; then, click on “SIGN UP NOW”.

2. Enter your activation code, date of birth, zip code and phone number; then click on “NEXT”.

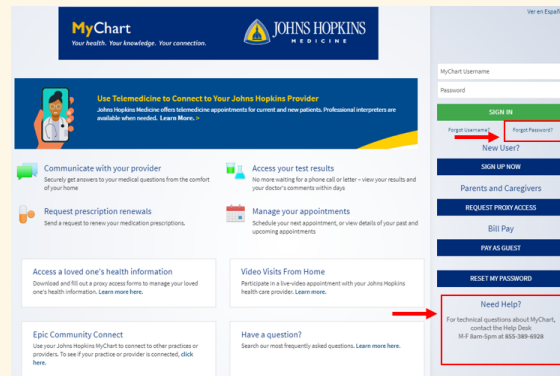

3. Create a username and password; then select the question and answer you will use to recover your password in case you forget it.

4. Click on “REGISTER” and you’re all set! MyChart can be used on a computer, tablet or smartphone.
