**No contrast - Please state the reason for requesting a non-contrast examination:**

Indicate Any Physical Findings on Diagram Below:

Pelvic Sonogram  
 Sonohysterogram  
See instructions on reverse side

Bone Densitometry (DEXA Scan)  
 VFA (Vertebral Fracture Assessment)

- Osteoporosis
- Long Term (Current) Use of Steroids
- Drug Induced Osteoporosis, Specify Drug \_\_\_\_\_
- Menopausal
- Post Menopausal
- Hyperparathyroidism
- Hypothyroidism
- Amenorrhea
- Osteopenia
- Other (Please Specify) \_\_\_\_\_

Procedures

- MRI Guided Core Needle Biopsy
  - Right  Left
- Stereotactic Guided Core Needle Biopsy
  - Right  Left
- Ultrasound Guided Core Needle Biopsy
  - Right  Left  if needed
- Ultrasound Guided FNA Biopsy
  - Right  Left
- Cyst Aspiration  Right  Left
- Ductogram  Right  Left

Screening Mammography  
 Bilat  Right  Left (w/CAD)

(Check All That Apply)

- Asymptomatic
- Fibrocystic Change, Generalized Lumpiness, Nonfocal Pain
- Post Mastectomy, For Unaffected Side
- Prior Remote History of Lumpectomy For Breast Cancer (After 5 Years)

Screening Breast Ultrasound

Diagnostic Mammogram (w/CAD)  
and/or Breast Sonogram (pm)  
 Bilat  Right  Left (w/CAD)

(Check All That Apply)

- Lump (please mark new or enlarging palpable area on diagram)
- Fibrocystic Disease
- Nipple Discharge
- Personal History of Lumpectomy for Breast Cancer (Within 5 Years)
- Follow Up Probably Benign Calcifications/Mass/Asymmetry
- Follow Up Benign Core Biopsy
- Evaluation for Residual Calcifications Post Lumpectomy
- Gynecomastia
- Abnormal finding on recent Breast Imaging
- Other (Please Specify) \_\_\_\_\_

Breast MRI  
 Bilat  Right  Left

- Contrast
  - w/o (eval. implant rupture only)
  - w & w/o

Pertinent History \_\_\_\_\_

\_\_\_\_\_

Other Examinations Requested

Clinical Dx / Relevant Clinical Findings

## Exam Preparations:

### MAMMOGRAMS AND DIGITAL MAMMOGRAPHY

Do not use deodorant, powder or lotions on the breasts or underarm area. Two piece outfits are recommended.
