

ELIGIBILITY CRITERIA

The awards are intended to recognize research undertaken by applicants while registered as students, postdoctoral fellows or medical scientists in training at The Johns Hopkins University School of Medicine. Fellows from basic science departments and clinical departments in the School of Medicine, and house staff from the Johns Hopkins Hospital are eligible. Registered applicants who undertook research as part of special programs at affiliated institutions or at the National Institutes of Health are eligible, however details of their Hopkins status must be provided in the letter from their faculty sponsor. Student applicants who have graduated or left Hopkins prior to September 1, 2017 are not eligible. Postdoctoral applicants who have left Hopkins prior to September 1, 2017 are not eligible. Postdoctoral applicants who have been promoted to Research Associate (non-tenure track faculty) are eligible if their total time as a postdoctoral researcher does not exceed 7 years.

PROCEDURE FOR SELECTION OF AWARDEES

The applicant need not apply for a specific award. The faculty selection committee will consider all applications for all eligible prizes and will make awards in the best interest of each applicant.

REQUIREMENTS FOR SUBMISSION

These requirements replace any previous versions. Applications will ONLY be accepted via email from now through January 24, 2018. Complete applications consisting of a completed coversheet and a SINGLE pdf or Word document containing the applicant's CV, abstract and essay must be submitted electronically to YIDP@jhmi.edu. Applications must be received by 5:00 PM EST January 24, 2018 to be considered. A recommendation letter from the postdoctoral mentor is also required by 5:00PM, January 24, 2018—see below). Please email YIDP@jhmi.edu with any questions regarding Young Investigators' Day.

Only one submission will be accepted per applicant.

All applicants: Submit an electronic version of your application with the following components: coversheet document and a single file containing CV, abstract and essay. Arrange for your sponsor letter to be sent. (See #5. below).

1. The coversheet is available in pdf format under the IBBS News & Events heading at http://www.hopkinsmedicine.org/institute_basic_biomedical_sciences/news_events/
2. The applicant's CV should list institutions attended, degrees or certifications earned, research presentations, and publications (names of all authors, title of report, and name of journal). List published abstracts similarly in a separate category.

3. The abstract should not exceed 250 words.

4. Essays, including figures but not references, must not exceed four single-spaced pages in 12 pt. Times font (approximately 1200 words). A maximum of two figures and their legends may be included as part of the essay. The essay should be in the form of a report (for example, for the journals Science or Nature). The introductory paragraph should describe the context and importance of the work. Applicants are strongly encouraged not to submit text that is taken verbatim from their publications, rather, the entire document should be written in a fashion suitable for a broad scientific audience.

5. All submissions must be accompanied by a recommendation letter submitted directly by the faculty sponsor that critically evaluates the contribution and role of the applicant in the research. This letter is also due at 5:00PM, January 24, 2018. Evidence of the applicant's originality and independence are of particular importance. The letter should include a percentile ranking of the applicant compared to others at similar stages in their academic careers. For applicants whose projects are collaborative and result in papers with multiple authors, recommendation letters should comment explicitly on the applicant's individual contribution to the entire study. The applicant must arrange for this letter to be emailed to YIDP@jhmi.edu.

AWARD PRESENTATIONS

Selected Prize winners will each present a lecture or a poster on their research at Young Investigators' Day ceremony and reception. All winners must be present at Young Investigators' Day to receive an award. All research prizes carry a \$1,000 honorarium.

<u>Student Awards</u>	<u>M.D.</u>	<u>Ph.D.</u>	<u>M.D./Ph.D.</u>	<u>Masters</u>
