# Reflection

- Name 1 thing you learned today
- Name 1 thing you will do differently because of a session today
- Name 1 area you want to learn more about

# Resources:

## <https://improveteaching.med.jhmi.edu/>

The screenshot shows the homepage of the Institute for Excellence in Education. At the top left is the Johns Hopkins Medicine logo and the text "Institute for Excellence in Education Committed to leading the way in medical and biomedical education". To the right is a search bar labeled "PRODUCTION SITE". Below the header is a section titled "Improve Your Teaching" with a link "Problems viewing this site? Click here for solutions." and a list of links: "Welcome to the IEE Improve Your Teaching Website", "Who can benefit from this website?", "What's inside?", and "About Us". To the right is a "FEATURED" section titled "HOW TO CREATE AN EFFECTIVE E-LECTURE". Below these are six colored boxes representing different topics: "TEACHING METHODS" (What's effective?), "ASSESSMENT" (Which ones should I use?), "ADULT LEARNING" (What to Know about Adult Learners), "LEARNERS AS TEACHERS" (How do I start?), "CONCEPT MAP" (See the connections), and "USEFUL RESOURCES" (Check these out).

The screenshot shows the "Teaching Methods" page. At the top is the Johns Hopkins Medicine logo and the text "Institute for Excellence in Education Committed to leading the way in medical and biomedical education". To the right is a search bar. Below the header is a navigation menu with links: "Home", "Teaching Methods", "Assessment", "Adult Learning", "Learners as Teachers", "Useful Resources", and "Concept Map". The main content area has a large blue banner with a monitor icon and the text "TEACHING METHODS". Below the banner is a green button labeled "Forum: Teaching Methods". To the left is an "OVERVIEW" section with a blue header "Introduction" and text: "The medical and biomedical school setting naturally requires varied teaching styles and techniques because of the unique academic and clinical settings in which they reside. It is increasingly evident that a variety of teaching approaches is also important to meet the needs and preferences of a variety of learners. There are now new teaching methods to master as well as ways to improve the effectiveness of tried and true approaches. This section presents quick guidelines, tips and varied teaching methods relevant to medical and biomedical education. We will continually add new topics and would love to hear your feedback in the Comments and Discussion section of each page. Please select a topic on the right." Below the text is a blue button "Turn On Builder [Edit]". To the right is a "TOPICS" section with a list of links: "Teaching Methods Overview", "Lectures", "Small Group Sessions", "The Flipped Classroom", "Team-Based Learning", "One-Minute Preceptor", "Clinical Coaching", and "How to Give a Great Chalk Talk". At the bottom is a footer with "Teaching Methods" and "Johns Hopkins University School of Medicine".
