

Inside Hopkins Nursing – Best Practices Nurse Visitor Week

This program combines learning about our best nursing practices and interacting with our nurses and nurse leaders. Our unique Nurse Visitor Week program provides four days of detailed presentations for individuals and groups who want to learn more about the best practices of Johns Hopkins Nursing. It also provides the participants the opportunity to visit/tour our new clinical building and simulation center.

Topics include:

- Johns Hopkins Nursing Structure & Organization
- Quality Improvement & Nurse Sensitive Indicators
- Magnet Recognition and Johns Hopkins Nursing
- Implementing Evidence-Based Practice at Johns Hopkins
- Johns Hopkins Nursing Staff Education
- Scheduling, Staffing, and Measuring Nursing Time
- Patient Safety In Action
- Why Patient Safety Matters in a Magnet Hospital
- Patient Safety: A Team Responsibility
- Nursing Research
- The Johns Hopkins Nursing Professional Assistance Committee
- The Professional Practice Model (Shared Governance)
- The New Graduate/SPRING Program at JHH -(Social Professional Reality Integration Nurse Graduate)
- Implementing an Effective System of Peer Review
- Service Excellence

Target audience

We welcome nursing leaders and administrators, nurse educators, and clinical nurses.

Moderate proficiency in the English language is needed to gain the most from this experience.

Location

The Johns Hopkins Hospital Baltimore, MD 21287
