Permission to Use

You have requested permission to use *The Hopkins Children's Guide to Surgery* coloring and activity book. The front and back covers have a white background with the title, hospital workers, 3-4 images of crayons, and appropriate author and copyright information. Page one states "Welcome" and does include the Johns Hopkins Children's Center logo and statement "Provided by". "Johns Hopkins" has been left off of the choices for the word search on page 23. The copy created for non-Hopkins entities may not be altered in any way except for the following: the user may add the hospital logo to the upper right hand corner of the cover and the inside cover is intentionally left blank so that the user can insert a hospital specific welcome message and hospital logo.

There is a one-time licensing fee, for your institution only, of \$100.00 (US) for permission to obtain a PDF read only version of *The Hopkins Children's Guide to Surgery*.
